

Purchases at Pier 2

Detailed Description of item / services:

To grant service provider to collect, transport and dispose of general (industrial) and Hazardous waste in their registered landfill site. The service provider is to be notified as and when the skips are full, to ensure effective and timeous collection.

The Service provider must provide this job for Four months Period:

Motivation for Purchase:

The service provider must supply three skips, each skip of 31 m³ sizes. Once the skips are full, the service provider will collect, transport, and dispose of waste (both general and hazardous). The skips should be distributed as follows: at procurement stores 2x skips and at A-check 1x skip.

- Within 24 hours of notification load and remove waste from the generation areas
- Timeous (Monthly) and accurate submission of terminal waste volumes removed and cost per skips
- Ensure that skips are covered by tarpaulin when carrying the waste during transportation
- Manifest documents, disposal certificate, invoices and any other relevant document sent on time
- Dept. Environmental Affairs Waste Management Facility License
- eThekweni Municipality
Refuse Removal Approval Certificate
- Transnet National Port Authority

Timeous and accurate submission of Progress and Feedback reports
