TRANSNET

Project Background- Nokusa

PROJECT BACKGROUND

The purpose of this contract to address safety critical major as for the usage of drydock during it operations. To increase dry dock structure lifespan as its maintenance is critical to avoid collapsing of concrete walls and prevent structural damage to vessels entering and exiting the dry dock for maintenance. Dry dock structure indicated critical structural defect that needs urgent attention to prevent major hazards. Stairs cases need to be constructed on each end to avoid delays on maintenance process and keep up with turnaround times. Concrete maintenance is critical as it protect the strength of formwork/shoring therefore it is vital to maintain prior to collapsing.

Transnet National Ports Authority (TNPA) will require a Principal Contractor with necessary experience and expertise to conduct dry dock structural repairs in the port of Durban. The Service Provider will be expected to construct formwork /shoring of the structural defect and concrete walls repairs.
