### Questions and Answers:

| Questions                                                                                                                                              | Answers                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Can a local Transnet bidder nominate a foreign conductor manufacturer, and what manufacturer authorisation is required?                             | For Question 1 and 3, The bidder(s) are to refer to the RFP in regard to local content for this procurement, the bidders are requested to provide an MoU and or OEM confirmation letter for all items which they decide to bid for, Refer to Evaluation methodology or the RFP                                                                    |
| 2. Could you confirm the conductor materials, strand constructions, dimensions, test standards and required Transnet product approvals?                | The bidders are to refer to the scope of work for list of documents per item, and download where applicable relevant Transnet specifications/drawing and SANS or all applicable international standards for material compositions and make up per conductor, all test and supporting documents are stipulated in details as per spec or standards |
| 3. Please provide the latest technical schedules, estimated quantities, delivery locations, briefing details and corrigenda.                           | Refer to page 36 of 60, with the pricing schedule. The specifications provided with the tender are the latest ones. The Delivery Location will be the Krugersdorp Millsite Warehouse.                                                                                                                                                             |
| 4. local content<br>Do local-content requirements apply to each line item, and are imported products eligible where no local designation is specified? | Yes please indicate local content threshold per item and contact the DTIC for any imported content that you may need to declare so they can give you an exemption letter to submit with the bid document                                                                                                                                          |
|                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                   |
