<https://transnetetenders.azurewebsites.net>;

- Submit bid documents by uploading them into the system against each tender selected.
- **Tenderers are required to ensure that electronic bid submissions are done at least a day before the closing date to prevent issues which they may encounter due to their internet speed, bandwidth or the size of the number of uploads they are submitting. Transnet will not be held liable for any challenges experienced by bidders as a result of the technical challenges. Please do not wait for the last hour to submit. A Tenderer can upload 30mb per upload and multiple uploads are permitted.**

b) The tender offers to this tender will be opened as soon as possible after the closing date and time. Transnet shall not, at the opening of tenders, disclose to any other company any confidential details pertaining to the Tender Offers / information received, i.e. pricing, delivery, etc. The names and locations of the Tenderers will be divulged to other Tenderers upon request.

c) Submissions must not contain documents relating to any Tender other than that shown on the submission.

3. CONFIDENTIALITY

All information related to this RFP is to be treated with strict confidentiality. In this regard Tenderers are required to certify that they have acquainted themselves with the Non-Disclosure Agreement. All information related to a subsequent contract, both during and after completion thereof, will be treated with strict confidence. - 4.2. Not necessarily accept the lowest priced tender or an alternative Tender;
- 4.3. Go to the open market if the quoted rates (for award of work) are deemed unreasonable;
- 4.4. Should the Tenderers be awarded business on strength of information furnished by the Tenderer, which after conclusion of the contract is proved to have been incorrect, Transnet reserves the right to terminate the contract;
- 4.5. Request audited financial statements or other documentation for the purposes of a due diligence exercise;
- 4.6. Not accept any changes or purported changes by the Tenderer to the tender rates after the closing date;
- 4.7. Verify any information supplied by a Tenderer by submitting a tender, the Tenderer/s hereby irrevocably grant the necessary consent to the Transnet to do so;
- 4.8. Conduct the evaluation process in parallel. The evaluation of Tenderers at any given stage must therefore not be interpreted to mean that Tenderers have necessarily passed any previous stage(s);
- 4.9. Unless otherwise expressly stated, each tender lodged in response to the invitation to tender shall be deemed to be an offer by the Tenderer. The Employer has the right in its sole and unfettered discretion not to accept any offer.

- 4.10 Not be held liable if tenderers do not provide the correct contact details during the clarification session and do not receive the latest information regarding this RFP with the possible consequence of being disadvantaged or disqualified as a result thereof.

- unduly high or unduly low tendered rates or amounts in the tender offer;
 - contract data of contract provided by the tenderer; or
 - the contents of the tender returnables which are to be included in the contract.
- 4.13. Transnet will not reimburse any Tenderer for any preparatory costs or other work performed in connection with this Tender, whether or not the Tenderer is awarded a contract.

a) Level 4 Programme

The proposed programme is in Microsoft Project/Primavera, is clear and easy to understand and presented in Level 4 programme. The delivery dates for all key deliverables are realistic and achievable given the available resources and constraints. All the task durations and resources allocations are reasonable, and schedule considers potential project risks (time risk allowance).

b) Logical Sequence

The programme follows a logical sequence of tasks and activities with predecessor and successors clearly indicated. The order and timing of concept design and detail design tasks/activities that will take place in order to provide the works is accurately identified and accounted for.

c) Critical path

The programme clearly shows the critical path that highlights the most time-sensitive tasks/activities.

d) Milestones and deliverables

The programme clearly identifies key project milestones and integrate into the programme. The milestone dates are realistic and aligned to the project objectives. The programme takes into account the dependencies between deliverables and quality requirements including interim approvals by the *Project Manager* and/or the *Employer*.

e) Time Risk Allowance

The programme must clearly demonstrate adequate provisions for Time Risk Allowance (TRA). Time Risk Allowances are not float, are owned by the Tenderer, can be included in the activity duration in the schedule in a code field or as an attachment.

2. Overall Duration

The overall programme shows the tenderer's ability to execute the works in terms of the Employers requirements within the required timeframe.

The scoring of the Programme will be as follows:

Total Points (20)	Programme Structure (10 points)	Overall Programme Duration (10 points)
(Points 0)	Tenderer has not submitted a programme to evaluate, or their programme does not meet outlined requirements (a to e)	Tenderer has not submitted a programme to evaluate
(Points 20)	Tenderer has submitted a proposed programme that meets one (1) outlined requirement (a to e)	Project duration is 7 months and more.
(Points 40)	Tenderer has submitted a proposed programme that meets two (2) outlined requirements (a to e)	Project duration is more than 6 months but less than 7 months.
(Points 60)	Tenderer has submitted a proposed programme that meets three (3) outlined requirements (a to e)	Project duration is more than 5 months but less than or equal to 6 months
(Points 80)	Tenderer has submitted a proposed programme that meets four (4) outlined requirements (a to e)	Project duration is less than or equal to 5 months but more than 4 months
(Points 100)	Tenderer has submitted a proposed programme that meets five (5) or more outlined requirements (a to e)	Project duration is 4 months or less

2.1.3. Specific Goals

2.1.3 Specific Goals: Valid Evidence of Specific Goals (Preference Claim Form) Requirements Stipulated in SBD6.

In terms of Transnet Preferential Procurement Policy (TPPP) and Procurement Manuals, the following preference points must be awarded to a bidder who provides the relevant required evidence for claiming points. The following Table represents the evidence to be submitted for claiming preference points for applicable specific goals in a particular tender:

THE BROAD-BASED BLACK ECONOMIC EMPOWERMENT COMMISSION'S

PRACTICE GUIDE 01 of 2022

DETERMINING THE VALIDITY OF A BROAD-BASED BLACK ECONOMIC EMPOWERMENT VERIFICATION CERTIFICATE, B-BBEE SWORN AFFIDAVIT AND CERTIFICATE ISSUED BY THE COMPANIES AND INTELLECTUAL PROPERTY COMMISSION

A. Introduction

1. The Broad-Based Black Economic Empowerment Commission ("B-BBEE Commission") is an entity established by the Broad-Based Black Economic Empowerment Act 53 of 2003 as amended by Act 46 of 2013 ("the Act"), to oversee the implementation of the Act, which includes provision of practice guides, explanatory notices, non-binding advisory opinions and clarification services to improve the understanding of the Act.
2. This Practice Guide is issued as a non-binding guide purely to assist with the interpretation of B-BBEE documentation presented by measured entities to ensure consistency in the application of the Act. Should this Practice Guide not be clearly applicable to your specific set of facts at any given time, you are advised to approach the B-BBEE Commission for a non-binding advisory opinion, which will be more specific to your set of facts.
3. This Practice Guide does not constitute a legal document or a ruling of the B-BBEE Commission on the issue concerned. Further, although this Practice Guide is not binding on the B-BBEE Commission, it does set out the approach that the B-BBEE Commission is likely to take on any matter relating to implementation of B-BBEE including determining the validity of B-BBEE sworn affidavits, B-BBEE verification certificates and certificates issued by the Companies and Intellectual Property Commission (CIPC) for B-BBEE purposes.
4. This Practice Guide replaces Practice Guide 01 of 2018 as of **01 November 2022**.

A. Purpose of this practice guide

5. The B-BBEE Commission has over the years continued to be inundated with requests from various stakeholders to confirm validity of B-BBEE certificates, sworn affidavits and CIPC certificates, which process has resulted in the B-BBEE Commission issuing a number of advisory letters to the affected entities to advise of invalidity of such documentation and the need to withdraw the invalid B-BBEE verification certificates or sworn affidavits/CIPC certificates. Thus, the purpose of this Practice Guide is to set out the approach for stakeholders to determine the validity of B-BBEE certificates or sworn affidavits/CIPC certificates for consistency.
6. The five elements of B-BBEE adopted in the Codes of Good Practice (the Codes) each have a specific purpose and together provide an integrated intervention to empower black people as envisaged in the Act. Further, the Act allows for B-BBEE verification, which is a measure used to determine compliance with the Act, and results in the issuing of a B-BBEE verification certificate.
7. A B-BBEE verification certificate, a sworn affidavit and a B-BBEE certificate issued by the CIPC is evidence of a measured entity's compliance with the Act over a particular period. Such compliance is based on B-BBEE related information of a measured entity in line with the applicable Codes as per Section 9 (1) of the Act.
8. It is contrary to the Act for a measured entity to trade with an invalid/inconclusive or incorrect B-BBEE verification certificate or sworn affidavit/CIPC certificate. The preferential procurement spend or economic activity that was directed by measured entities to a supplier or entity on the basis of an invalid B-BBEE document cannot be recognised during a B-BBEE measurement process, therefore, it is critical to determine the validity of B-BBEE verification certificates or sworn affidavits/CIPC certificates presented by measured entities in order to access an economic opportunity both in the public and private sector.

B. Determining validity of a sworn affidavit for B-BBEE compliance

9. The legal dictionary (<https://legal-dictionary.thefreedictionary.com/Affadavit>) defines a sworn affidavit as a written statement of facts voluntarily made by a person under an oath or affirmation administered by a person authorized to do so by law.
10. In terms of the Codes, Exempted Micro-Enterprises (EMEs) and black controlled and owned Qualifying Small Enterprises (QSEs) only have to use a sworn affidavit to indicate their B-BBEE

compliance status. Government introduced this mechanism specifically to reduce the cost of doing business and regulatory burden for these entities.

11. The Department of Trade, Industry and Competition (**the dtic**) has designed sworn affidavit templates and qualifying measured entities must use these templates, which can be accessed on **the dtic** website. It is acceptable to use the templates on the letterhead of the measured entity.
12. The only time an EME can be verified by a South African National Accreditation System (SANAS) accredited verification professional is when it wishes to maximise its B-BBEE points and move to a higher B-BBEE recognition level, and that must be done using the QSE Scorecard.
13. The exception to this is only with regard to the Transport Sector where EMEs have a choice of obtaining accounting officer letter or get verified and be issued with a B-BBEE verification certificate by a SANAS accredited professional or agency because the Integrated Transport Sector Code has not been aligned to the amended Generic Codes.
14. Also, start-ups that are EMEs but wish to tender for contracts of R10 million in value or above must be verified using the QSE scorecard, and for tenders of R50 million and above must be verified using the generic scorecard.
15. Further, the Construction Sector Code, provides for EMEs whose annual turnover is R1.8 million for Built Environment Professionals and R3 million for Contractors or less to obtain automatic recognition levels and these do not require to undergo verification except in instances where they elect to enhance their B-BBEE status levels. In those circumstances there is a requirement for these EMEs to contribute towards empowerment by complying with the 40% sub-minimum on skills development element and in ensuring compliance with the skills development element, these EMEs are required to be verified by a SANAS accredited verification professional or agency.
16. Furthermore, the Generic Codes and the Financial Services Sector Code have granted an option to 51% and 100% black owned QSEs to undergo a verification process from a SANAS accredited verification professional if they so choose. However, for consistent application, EMEs in the Financial Services Sector should only obtain a sworn affidavit, and not a B-BBEE verification certificate as there is nothing to verify.

17. The following pointers are key in determining the validity of a sworn affidavit:

- a) Name/s of deponent as they appear in the identity document and the identity number must be completed.
- b) Designation of the deponent as either the director, owner or member must be indicated in order to know that the person deposing to the sworn affidavit is duly authorised. A deponent is able to tick more than one option if the person is a director and owner of the entity.
- c) Name of enterprise must be cited as per the enterprise registration documents issued by the CIPC, where applicable, including the enterprise business address.
- d) Percentage of ownership held by black people, black female and black designated groups. For designated groups, the percentage must be indicated for each sub-category or nil where there is none. In the case of specialised enterprises as per Statement 004, the percentage of black beneficiaries must be reflected.
- e) Indicate the total annual revenue for the year under review and whether it is based on audited financial statements or financial statements or management accounts. Please select one option.
- f) Indicate the full financial year end (day/month/year) as per the enterprise's registration documents, which was used to determine the total revenue. This must be the recent financial year end.
- g) Select the B-BBEE Status level based on black ownership percentage. An enterprise can only have one B-BBEE status level.
- h) Empowering supplier status must be indicated. For QSEs, the deponent must select the basis for which the empowering supplier status is based on.
- i) Date of signature for both the deponent and Commissioner of Oath must be the same. If using the first **dtic** template for sworn affidavits, where provision is not made for Commissioner of Oath signature date, the date of the deponent will be regarded by default as the signature date for Commissioner of Oath.
- j) Commissioner of Oath cannot be an employee or ex officio of the enterprise because, a person cannot by law, commission a sworn affidavit in which they have an interest. Please note that the B-BEE Act does not determine the qualification for Commissioner of Oaths, this is done in terms of the Justice of Peace and Commissioners' of Oaths Act, 1963 (Act No. 16 of 1963) which is administered by the Department of Justice and Constitutional Development (DOJ & CD). Therefore any queries regarding the legitimacy of a Commissioner of Oath need to be directed to DOJ & CD.
- k) A B-BBEE sworn affidavit is valid for a period of 12 months calculated from the date the sworn affidavit was commissioned, for example, if the sworn affidavit is commissioned on 12 August 2022, it will expire on 11 August 2023.

C. B-BBEE Certificate issued by the Companies and Intellectual Property Commission

18. **the dtic** through government Gazette Number 38765 published on 6 May 2015, mandated CIPC to issue B-BBEE certificates for EMEs and start-up enterprises, in its efforts to reduce cost of business for small businesses. A certificate issued by CIPC has the same status as a B-BBEE sworn affidavit.
19. Subsequently, CIPC issued a Customer Notice indicating that B-BBEE certificates can be applied for via e-services on the CIPC website (www.cipc.co.za), at CIPC Self Services Terminals when registering or filing Annual Returns.
20. **The following conditions apply when an enterprise uses the CIPC services for obtaining a B-BBEE certificate:**
 - a) Only directors of a company or members of close corporations can apply for a B-BBEE certificate.
 - b) Only companies and close corporations with a turnover of less than R10 million can apply via CIPC.
 - c) The enterprise's status must be "In Business".
 - d) All Annual Return filings for the relevant company or close corporation need to be up to date;
 - e) Application for a B-BBEE certificate can be done at any time (not only when registering a company or filing returns), provided that an application for the certificate which is still valid, was not done already.
 - f) Applicant must agree to the B-BBEE terms and conditions.
 - g) A director or member amendment must be filed if the director or member's email address or telephone is not correct or up to date.
21. A CIPC certificate can be submitted to the B-BBEE Commission for attention of Mr. Madidimalo Ramare at MRamare@beecommission.gov.za to confirm if it was generated from the CIPC system. However, on face value, the following information must appear on the certificate:
 - a) Name of enterprise, registration number and business address.
 - b) Date of issue and expiry adding to twelve months (e.g 9 June 2018 to 8 June 2019) must be indicated.
 - c) Percentage of total black ownership, black female ownership and total white ownership.
 - d) Certificate number.
 - e) Barcode with tracking number.

- f) Barcode with enterprise number.
- g) B-BBEE Status and procurement recognition level.
- h) **the dtic** logo on the top left corner, and CIPC logo on the top right corner.
- i) CIPC watermark.

D. Determining validity of a B-BBEE Verification Certificate for B-BBEE compliance

- 22. An entity that qualifies in terms of the B-BBEE Act to undergo a B-BBEE verification process, can only do so with a verification professional or agency that has been accredited by SANAS or a B-BBEE Verification Professional Regulator that may be appointed by the Minister of Trade, Industry and Competition.
- 23. B-BBEE verification means the process and activities conducted by a verification professional or agency to assess, verify and validate that the score awarded to a measured entity is a result of individual scorecard elements supplied by a measured entity, and to evaluate B-BBEE transactions in order to provide an indicative B-BBEE score and certification based on the principles of B-BBEE as per the Codes.
- 24. A B-BBEE verification process is important in assuring parties that rely on the score achieved by the measured entity and reflected on their B-BBEE Verification Certificate (refers to the B-BBEE verification certificate issued by the verification professional or agency which reflects the overall B-BBEE Status of a measured entity and scoring allocated for each scorecard element verified in respect of the measured entity) and that the information on which the certificate was issued is acceptable, and has been independently verified, and is free from misstatements.
- 25. Therefore, the role of a verifier is to assess, verify and validate both disclosed and undisclosed B-BBEE related information of the measured entity. The verification thereof should be based on the principles contained in the B-BBEE Act and relevant Codes, by applying the verification methodologies outlined in the Framework for accreditation and verification by all verification agencies (also known as the verification manual) as well as the Accreditation of B-BBEE Verification Agencies document issued by SANAS (also referred to as the R47-03). Important to note that a verifier is not to provide clarity or opinion on interpretation of any B-BBEE matter as such clarity must be sought from the B-BBEE Commission using the contact details mentioned below.
- 26. **A B-BBEE Verification Certificate shall identify the following information:**
 - a) The name and identifiable physical location(s) of the measured entity as per the CIPC records.

- b) The registration and VAT number of the measured entity.
- c) The dates of granting of the B-BBEE score/the period of validity, which is the initial issue date (e.g. 7 October 2021 to 6 October 2022) and the expiry date of the verification certificate.
- d) The revision or reissue date if applicable. .
- e) A unique identification number including revision number if applicable.
- f) The standard and/or normative document, including the issue and/or revision used to evaluate the client (amended codes / specialised or respective sector codes).
- g) The name and/or mark/logo of the B-BBEE verification agency.
- h) The scorecard against which the measured entity has been verified (Generic / QSE).
- i) The B-BBEE status level.
- j) The SANAS Accreditation Symbol on the verification certificate.
- k) The B-BBEE procurement recognition level.
- l) Score per element including total score achieved.
- m) Black ownership percentage.
- n) Black Female ownership percentage.
- o) Black designated group percentage:
 - Black Youth percentage
 - Black Disabled percentage
 - Black Unemployed percentage
 - Black People living in Rural areas percentage
 - Black Military Veterans percentage
- u) Modified flow has been applied, indicate yes or no.
- v) Exclusion principle used, indicate yes or no.
- w) Recent financial year end used (day/month/year).
- x) Discounting principle used, indicate yes / no.
- y) Empowering Supplier status, indicate yes / no.
- z) Name and signature of technical signatory
- aa) Amendments to certificate to be clearly documented.
- bb) A consolidated certificate to state as such and refers to attachment of the measured entities that are consolidated with registration and vat numbers.
- cc) In terms of the reflection of the level and points on the B-BBEE verification certificate, the following is applicable:
 - Participated in Y.E.S Initiative yes / no
 - Achieve Y.E.S Target and 2.5% Absorption yes / no
 - Achieve 1.5 x Y.E.S Target and 5% Absorption yes / no
 - Achieve Double Y.E.S Target and 5% Absorption yes / no

27. The recipient or user of a B-BBEE verification certificate can contact any of the accredited verification professionals or agency that is said to have issued the B-BBEE verification certificate, to request confirmation on the issuance of B-BBEE certificate. The recipient or user is also advised to use the SANAS website to verify the accreditation status, accreditation period and scope of accreditation for the verification professional or agency. The SANAS website also has a list of all verification professionals or agencies whose accreditation status has been withdrawn, or suspended, because a verification professional or agency cannot issue a B-BBEE certificate if the accreditation status has expired, withdrawn or suspended.
28. The recipient or user of the B-BBEE verification certificate, sworn affidavit or B-BBEE certificate issued by CIPC is also allowed, as part of its due diligence processes, to request any relevant additional information or documents from the measured entity in order to validate the credibility of the information recorded on the B-BBEE verification certificate, sworn affidavit/CIPC B-BBEE certificate.
29. It is also the responsibility of the recipient or user of the B-BBEE verification certificate or sworn affidavit/CIPC certificate to specify if measured entities ought to furnish an original or copy including certified copy of the B-BBEE verification certificate or sworn affidavit/CIPC certificate.

E. Penalties as per the B-BBEE Act

30. Trading with an invalid or fraudulent B-BBEE certificate or sworn affidavit/CIPC certificate may constitute an offence in terms of Section 13O (1) (a) of the B-BBEE Act, which state that a person commits an offence if that person knowingly misrepresents or attempts to misrepresent the broad-based black economic empowerment status of an enterprise, and the B-BBEE Commission may institute an investigation in terms of Section 13J of the B-BBEE Act. In addition, Section 13A of the B-BBEE Act has empowered organs of state and public entities to cancel any contract or authorisation awarded on account of false information knowingly furnished by or on behalf of an enterprise in respect of its broad-based black economic empowerment status.
31. If an entity is found to have violated the B-BBEE Act, the B-BBEE Commission is empowered to act accordingly as guided by the B-BBEE Act and this can result in the entity that violated the B-BBEE Act to be fined up to 10% of its annual turnover, and individuals involved could be imprisoned for up to 10 years, and / or fined. Specifically, an offence under section 13O (2) could lead to imprisonment of up to 12 months, or a fine, or both the fine and imprisonment.

32. In terms of section 13O (2) a verification professional, procurement officer or any official of an organ of state or public entity who becomes aware of the commission of, or attempt to commit any offence referred to under section 13O (1) and fails to report it, is guilty of an offence.
33. This Practice Guide is issued as a guide purely to assist with the interpretation and testing the validity of a B-BBEE verification certificates and sworn affidavit/CIPC certificates, and does not constitute a legal document or ruling of the B-BBEE Commission.
34. This Practice Guide may be updated anytime by the B-BBEE Commission if there are any material changes arising from developments in the application of the B-BBEE Act. In such an instance, an amended version will be published to replace this one.

- 5.2 If the Tenderer/Service Provider/Contractor has committed a transgression through a violation of section 3, or any material violation, such as to put its reliability or credibility into question. The exclusion will be imposed for up to a maximum of 10 (ten) years. However, Transnet reserves the right to impose a longer period of exclusion, depending on the gravity of the misconduct.

6 TRANSNET'S LIST OF EXCLUDED TENDERERS (BLACKLIST)

- 6.1 The process of restriction is used to exclude a company/person from conducting future business with Transnet and other organs of state for a specified period. No

Tender shall be awarded to a Tenderer whose name (or any of its members, directors, partners or trustees) appear on the Register of Tender Defaulters kept by National Treasury, or who have been placed on National Treasury's List of Restricted Suppliers. Transnet reserves the right to withdraw an award, or cancel a contract concluded with a Tenderer should it be established, at any time, that a tenderer has been restricted with National Treasury by another government institution.

- 6.2 All the stipulations on Transnet's restriction process as laid down in Transnet's Supply Chain Policy and Procurement Procedures Manual (CPM included) are included herein by way of reference. Below follows a condensed summary of this restriction procedure.
- 6.3 On completion of the restriction procedure, Transnet will submit the restricted entity's details (including the identity number of the individuals and registration number of the entity) to National Treasury for placement on National Treasury's Database of Restricted Suppliers for the specified period of exclusion. - 6.4 The decision to restrict is based on one of the grounds for restriction. The standard of proof to commence the restriction process is whether a "prima facie" (i.e., on the face of it) case has been established.
- 6.5 Depending on the seriousness of the misconduct and the strategic importance of the Goods/Services, in addition to restricting a company/person from future business, Transnet may decide to terminate some or all existing contracts with the company/person as well.
- 6.6 A Service Provider or Contractor to Transnet may not subcontract any portion of the contract to a blacklisted company.
- 6.7 Grounds for blacklisting include: If any person/Enterprise which has submitted a Tender, concluded a contract, or, in the capacity of agent or subcontractor, has been associated with such Tender or contract:

 - h) has litigated against Transnet in bad faith.
- 6.8 Grounds for blacklisting include a company/person recorded as being a company or person prohibited from doing business with the public sector on National Treasury's database of Restricted Service Providers or Register of Tender Defaulters.
- 6.9 Companies associated with the person/s guilty of misconduct (i.e., entities owned, controlled or managed by such persons), any companies subsequently formed by the person(s) guilty of the misconduct and/or an existing company where such person(s) acquires a controlling stake may be considered for blacklisting. to, corruption, fraud, theft, extortion and contraventions of the Competition Act 89 of 1998, which occurred in the last 5 (five) years with any other public sector undertaking, government department or private sector company that could justify its exclusion from its registration on the Tenderer's/Service Provider's/Contractor's database or any tendering process.

- 7.2 If it is found to be that the Tenderer/Service Provider/Contractor made an incorrect statement on this subject, the Tenderer/Service Provider/Contractor can be rejected from the registration process or removed from the Tenderer/Service Provider/Contractor database, if already registered, for such reason (refer to the Breach of Law Returnable Form contained in the document.)

Where applicable, the respective Transnet Operating Division processing your application may request further or additional information from your company.

The Service Provider warrants that the details of its bank account ("the nominated account") provided herein, are correct and acknowledges that payments due to the Supplier will be made into the nominated account. If details of the nominated account should change, the Service Provider must notify Transnet in writing of such change, failing which any payments made by Transnet into the nominated account will constitute a full discharge of the indebtedness of Transnet to the Supplier in respect of the payment so made. Transnet will incur no liability for any payments made to the incorrect account or any costs associated therewith. In such an event, the Service Provider indemnifies and holds Transnet harmless in respect of any payments made to an incorrect bank account and will, on demand, pay Transnet any costs associated herewith.

Transnet expects its suppliers to timeously renew their Tax Clearance and B-BBEE certificates (Large Enterprises and QSEs less than 51% black owned) as well as sworn affidavits in the case of EMEs and QSEs with more than 51% black ownership as per Appendices C and D.

In addition, please take note of the following very important information:

1. If your annual turnover is R10 million or less, then in terms of the DTI Generic Codes of Good Practice, you are classified as an Exempted Micro Enterprise (EME). It is only in this context that an EME may submit a B-BBEE verification certificate. These EME sworn affidavits must be accepted by the . Government introduced this mechanism specifically to reduce the cost of doing business and regulatory burden for these entities and the template for the sworn affidavit is available at no cost on the website www.thedti.gov.za or EME certificates at CIPC from www.cipic.co.za.

The B-BBEE Commission said "that only time an EME can be verified by a SANAS accredited verification professional is when it wishes to maximise its B-BBEE points and move to a higher B-BBEE recognition level, and that must be done use the QSE Scorecard".

2. If your annual turnover is between R10 million and R50 million, then in terms of the DTI codes, you are classified as a Qualifying Small Enterprise (QSE). 1 EXECUTIVE OVERVIEW

1.1 BACKGROUND

Enhancing global competitiveness requires the optimisation of port precincts and land use to support efficient and effective operations. In response to declining performance, capacity limitations, and operational challenges at the Port of Durban, Transnet National Ports Authority (TNPA) developed a comprehensive Durban Port Master Plan to expand capacity and deliver the infrastructure necessary to revitalise South Africa's busiest port, positioning it as a regional hub for containerised and automotive cargo. This was complemented by the Richards Bay Port Master Plan to support the redistribution of cargo capacity, strengthen container and automotive growth within the Port of Durban, and drive sustainable economic development across KwaZulu-Natal and the broader national economy. The KwaZulu-Natal Ports Master Plans are underpinned by the following key principles.

1. The Port of Durban is to be positioned as a regional Container Hub and a premier terminal for the Automotive sector. Container capacity is due to increase from 2.9 to 11 million Twenty-foot Equivalent Units (TEUs), whilst Automotive capacity will increase from 0.52 to 1 million Fully Built Units (FBUs);
2. The Port of Richards Bay is being positioned as a dry bulk hub port and, in alignment with the Department of Mineral Resources and Energy's strategic plan 2020-2025, features a new berth for handling Liquefied Natural Gas (LNG) as a cleaner alternative to coal for power generation. Chrome and magnetite capacity will increase from 5.3 to 11.7 million tonnes per annum (mtpa) and 6.25 to 9.08 mtpa respectively. Gas capacity is due to increase from 3 to 6 million kilolitres (kl) whilst coal capacity at the Port will increase from 54 to 69 mtpa; and
3. Relocation of the SA Navy base from Salisbury Island in Durban to the Naval and Pelican Islands in the Port of Richards, with a Satellite Station to be developed at the Port of Durban.

The initiatives of KZN Port Master Plans are depicted below.

Figure 1: Port of Durban Master Plan

Figure 2: Port of Richards Bay Master Plan

As part of the KwaZulu-Natal Ports Hub Strategy, port layouts will be optimised by consolidating compatible activities within defined precincts. Accordingly, the handling of mineral bulk cargo (typically referred to as “dirty” cargo) is proposed to transition from Durban to Richards Bay to improve dry bulk efficiency across both ports and support growth in their respective dry bulk sectors.

1.2 DRY BULK OPERATIONS AT THE PORT OF DURBAN

Dry bulk is handled within two (2) of the five (5) precincts in the Port of Durban, namely Maydon Wharf and Island View. Maydon Wharf is a mixed-use precinct that hosts cargo terminals handling dry-bulk, break-bulk, a limited amount of liquid bulk and a small percentage of containers. The precinct landside area is dedicated to commercial logistics and includes warehousing and transport logistics-related activities. The main types of cargo handled within the precinct are dry bulk (agricultural products), break-bulk, multi-purpose cargo and liquid bulk (high flash oils). The southern precinct of the port, the Island View precinct, is South Africa’s main petrochemical hub for the import, export and storage of liquid bulk commodities (petroleum, diesel, jet fuel, chemicals etc.), however, one major terminal currently handles dry bulk (agricultural) minerals within this precinct.

1.3 DRY BULK OPERATIONS AT THE PORT OF RICHARDS BAY

The Port of Richards Bay is divided into three (3) precincts, namely, South Dunes, Bayvue and Newark. The Bayvue precinct is strategically located on the northern side of the port, and the expansion thereof is envisaged to house the increase in dry bulk volumes in accordance with the KZN Master Plans. The major commodity flows in the precinct are the export of chrome, coal and magnetite which is primarily handled in dry bulk form. Much of this material arrives via rail, is offloaded, and conveyed to several stockpiles. Various reclaim methods are used to feed conveyors and ship loaders. There are also several private terminal facilities outside of the port boundary which convey material into the terminal and feed into the ship loaders. The dry bulk and break-bulk terminals at the Bayvue Precinct are highly congested and are not performing optimally, thus, performance improvements and capacity investments are required to improve the competitiveness of the port

1.4 PROBLEM STATEMENT

Maydon Wharf currently lacks an integrated precinct-level strategy to guide long-term land use, infrastructure investment, and governance in alignment with Transnet and TNPA strategic priorities. Development has been driven by legacy land uses, individual leases, and short-term operational needs, resulting in fragmented planning, inefficient land utilisation, infrastructure constraints, and operational conflict between clean and dirty cargo activities.

As a key mixed-use precinct within the Port of Durban, Maydon Wharf plays a critical role in supporting national food security, agricultural value chains, break-bulk operations, and associated logistics service

es. The precinct also handles projects or out of gauge cargo. Currently this cargo is staged for prolonged periods in the precinct whilst waiting for clearance processes by Department of Transport (DOT) and escort by the metro police. This is damaging the road and storm water infrastructure, and obstructive to roads. The Service Provider should advise on this operation as well. This exposes TNPA to increasing environmental, health and safety, reputational, and regulatory risks, while constraining its ability, as landlord port authority, to proactively manage cargo transition, optimise land value, and align with the Port of Durban strategy.

In the absence of a clearly articulated end-state vision and implementation roadmap, TNPA's ability, as a landlord port authority, to proactively manage land rationalisation, guide responsible cargo transition, and unlock long-term value from the precinct is constrained. Decision-making remains largely reactive, increasing the risk of misaligned investment, inefficient displacement of cargo, disruption to critical value chains, and missed opportunities to modernise Maydon Wharf in accordance with global best practice port standards.

The absence of a coordinated framework also undermines Environmental, Social and Governance (ESG) objectives, limiting systematic environmental mitigation, socio-economic impact, transformation, and governance transparency. A dedicated Maydon Wharf Precinct Strategy is therefore required to define a clear end-state vision, manage risk, embed ESG principles, and support the sustainable competitiveness of the Port of Durban.

2 KEY ROLES/ RESPONSIBILITIES

The successful service provider shall be responsible for the development of a Maydon Wharf Strategy and a Preliminary Report for initiative no.3 of the Port of Richards Bay Master plan (Provision of Relocated Bulk Commodities). The Service Provider is expected to assist TNPA in realising its vision of positioning Maydon Wharf as a sustainable smart port precinct specialising in handling clean dry bulk, break bulk/ Multi-Purpose cargo and eventually containers whilst simultaneously positioning the Port of Richards Bay as a premium dry bulk port.

This entails the Service Provider undertaking a review of the status quo of dry bulk handled in Maydon Wharf, analysing and validating TNPA's conceptual Maydon Wharf Strategy, and developing a comprehensive Maydon Wharf Strategy underpinned by the hub port strategy.

The successful Service Provider will work closely with TNPA to develop and analyse scenarios for storage requirements in Maydon Wharf based on market demand, consult existing terminal operators and tenants, analyse relevant commercial leases and the current footprint of terminals before recommending an optimal precinct layout and a robust displacement plan that supports the systematic implementation of the KZN Master Plans.

The Service Provider is expected to demonstrate a thorough understanding of the complexity and uniqueness of the port sector and, more especially, the nuances of the Landlord Port Model by which TNPA is governed.

Furthermore, the Service Provider is to investigate the detailed impact of possible displacement of some of the dry bulk minerals to Richards Bay whilst considering the logistics chain of the current operation based on:

1. Existing value chains;
2. Proximity to other suppliers and/clients;
3. Connectivity of Richards Bay to import or export destination;
and
4. Economies of scale for respective sectors.

3 DESCRIPTION OF SERVICES

3.1 OBJECTIVE OF SERVICES

The objective of the Service Provider services is to support Transnet National Ports Authority (TNPA) in the development of a comprehensive, integrated Maydon Wharf Precinct Strategy that translates Transnet R4G, Port of Durban and TNPA strategic objectives into a clear, spatially defined, and implementable end-state for the precinct aligned with the Port Development Framework (PDFP).

The Service Provider will assist TNPA in repositioning Maydon Wharf as a modern, efficient, and sustainable port precinct focused predominantly on the handling of clean dry bulk, break-bulk/multi-purpose cargo, liquid bulk and the future development of container handling capacity, while enabling the responsible and systematic transition of incompatible ("dirty") bulk cargo to appropriate locations within the KwaZulu-Natal port system.

The services aim to enable TNPA, as landlord port authority, to proactively manage land use, infrastructure investment, lease rationalisation, and cargo transition in a manner that:

1. Enhances operational efficiency and competitiveness of the Port of Durban;
2. Protects critical national value chains, including food security and manufacturing supply chains;
3. Mitigates environmental, health and safety, reputational, and regulatory risks; and
4. Unlocks long-term spatial, commercial, and socio-economic value from the Maydon Wharf precinct.

The Service Provider will embed Environmental, Social and Governance (ESG) principles into the strategy by promoting environmentally responsible operations, socio-economic inclusion and transformation, and transparent, predictable, and accountable governance and decision-making frameworks.

In addition, the services include the development of a preliminary implementation framework for the accommodation of possible displaced cargo at the Port of Richards Bay, ensuring alignment with the KZN Port Master Plans and PDFP, minimisation of disruption to existing value chains, and a coordinated, phased implementation approach across ports.

Overall, the Service Provider's mandate is to equip TNPA with a robust strategic, technical, commercial, legal, and operational basis to guide decision-making, secure stakeholder

alignment, and support the sustainable long-term competitiveness of the Durban–Richards Bay port system.

TNPA reserves the right to cancel or alter the scope as the need may arise.
