Date Received	BIDDER'S QUERY	TPT'S RESPONSE
13 June 2023	<p>Please note that we request for a site visit to the stack area 100 for the above tender.</p> <p>We would like to assess the current damage on the tar surface, take some pictures of the area in question and determine which areas require concrete as discussed in the tender briefing and measure the dimensions of area</p>	<p>Site visit can be arranged, all tenderers are invited, Friday, 23rd June 2023 at 11am</p> <p>Interested bidders are to meet at Pier 1 Auditorium and bidders will be shuttled to the site.</p>
20 June 2023	<p>With regards to the Upgrade of Empty Stack (Area 100) tender submission, would you be so kind as to advise if the submission date can be extended for a further 7 working days.</p> <p>Further to the above, we would also like to visit the site with civil engineer to get clarity on a few items. Can you please advise as to who we should speak to gain access?</p>	<p>An extension is acceptable. For site visit see above. <u>Refer to the addendum</u></p>
20 June 2023	<p>Having reviewed the Tender Document, the scope is not clearly defined ..</p> <p>Our project engineer is having difficult to provide the accurate costing as well as the design given the lack of information from Transnet.</p> <p>I am afraid that we may not have enough time to complete the tender as well as the design required as per stipulated submission date. In the interest of fairness, I would urge Transnet to give us more time as the days for tender submission are drawing closer and the critical information is yet to be given to us.</p> <p>We require the following information from the client that was promised during the tender briefing session.</p>	<p>This is a design and construct Contract, hence minimal information from the Employer. An extension is acceptable.</p> <p>Refer to the addendum</p>
