

SCOPE OF WORK

PURCHASE, INSTALLATION AND COMMISSIONING OF 55 INCH LCD SCREENS, MEDIA PLAYERS AND PROVISION OF CONTENT MANAGEMENT SOFTWARE AND LICENSES FOR DURBAN BBC TERMINALS (**QUANTITY = 17**)

The devices supplied must also have audio capabilities and have multiple display outputs to support other communication devices and events

The screens **MUST** conform to the IP66 standard, which ensures that the screens are dust and moisture proof, which is a critical requirement to ensure the longevity of the devices and consistent operation.

Due to ICT security policies at TPT, and to avoid the communication challenges experienced with the previous system, the new media players must ensure content management is cloud based and uploads media independently of the corporate network.

The screens and devices supplied must also have multiple audio outputs and video inputs so that we can seamlessly connect our own devices for MS TEAMS meetings and Video Conferencing.

The areas where these screens will be placed at Durban BBC are as follows:

1. 45 Bay Terrace – Main Reception
2. 45 Bay Terrace – 1st Floor
3. MHA Building
4. New Technical Workshop (L/M)
5. Manifest Office (CAR)
6. Supervisor's offices - LM
7. Canteen @ 111
8. Technical Workshop - MHA
9. Security Office – Q/R
10. D Shed - MPT
11. E Shed - MPT
12. F Shed - MPT
13. Clinic @ MPT
14. Maydon Wharf – Main Reception Area
15. Mess Room 12 – Maydon Wharf
16. Small Mess room – Maydon Wharf
17. G COS Building – Maydon Wharf
