1.	Wed 2024/04/17 19:48	<p>Good Day</p> <p>I'd like to inquire regarding the above mentioned subject. I am a 3CEPE Contractor who is undergoing an upgrade review for a project i recently completed End March now by the time this bid closes. I'll still be a 3CEPE but by the end of July I'll be a 4CEPE contractor.</p> <p>Am I eligible to tender for this project?</p>	<p>The tender cidb requirements of this tender have a tender range starting from cidb grade 4 or higher. The cidb status on the RoC is checked / verified when the evaluation process is being done.</p> <p>We are not certain at this point when that process will be. It could be in July. So we will not discourage tenderers in Grade 3CE PE from submitting their tenders at this point, but each tenderer needs to be cidb Grade 4 or higher when the evaluation of tenders starts, proceed and end.</p>	Thu 2024/04/18 09:29

33.	Friday, April 26, 2024 10:40 PM	<p>Good day</p> <p>I would like to request for Tender no : TNPA/2024/03/0028/61282/RFP clarification regarding that excel format 1 BOQ that is not in a Document ,that’s attached on the Tender link with the Document If must we attach it at the back of the Document or we must attach inside the document with the other BOQ ?</p> <p>Thank you</p>	<p>Thanks for the enquiry</p> <p>When ready to submit your tender, you can replace the BoQ in the Tender document with the one on the link. It must be fully completed as per tender instructions.</p> <p>You would need to keep the soft copy (Ms Excel) with you, we will need it later if you are shortlisted as one of the Top scoring 15 contractors in a class of work and a region. The submission of your tender is in a pdf document.</p> <p>It means even if you had completed the BoQ from an MS Excel format, you still need to convert it back to pdf when you are done and attach it with a tender document and submit it to a Transnet platform as per tender requirements.</p> <p>There is a tender briefing mentioned in the tender document, you can attend it if you have time.</p> <p>Hope this answers the question.</p> <p>Regards</p>	Mon 2024/04/29 09:09
34.	Saturday, April 27, 2024 10:47 PM	<p>Good day</p> <p>FRAMEWORK CONTRACTS FOR THE CIVIL ENGINEERING WORKS IN VARIOUS TNPA PREMISES – EASTERN REGION - (3 YEARS) RFP NUMBER: TNPA/2024/03/0028/61282/RFP</p> <ol style="list-style-type: none"> As per the above mentioned tender document, we wish to tender as a form of partnership so we want to ask what are the necessary returnable for both partner as one partner is grade 7CE and the other partner is grade 2CE. The document should be filled under which partners information? The grade 2CE partner is a vendor with Transnet can we upload and submit the document through his account? Does the document requires locality proof like proof of address? <p>FOR JV</p> <ol style="list-style-type: none"> For JV which partner should fill its details on the document as one partner of grade 2CE is a registered vendor? The declaration form are both JV partners supposed to fill that declaration? JV agreement has to be submitted too? If we do not consolidate but we both submit the BBBEE certificates what is the catch? Where it says Name of bidder do we write company name for the partner 	<p>Thanks for the enquiry.</p> <p>Please use a computer or a smartphone to follow the answers to your questions. Page numbers cited or referred to in my responses below are also trackable if you follow a pdf tender document from a computer / phone.</p> <p>The answers to questions as follows:</p> <ol style="list-style-type: none"> You would need to tick the appropriate box in T2.2 -07 <i>Authority to submit a tender</i> (page 86 & 88) and complete the section for JVs (section C). Once an agreement is in place, the JV partner must elect or nominate a person who will complete the tender document on behalf of the JV. The Compulsory Enterprise Questionnaire form (Page 97) must be completed by both members of the JV. Check other returnable schedules as well, if there is no other which strictly mentions that both partners must complete. If it is silent, then no need to complete. You would also need to tick the appropriate box in SBD 6.1 (item 8.4, page 103) The answer is as above The registration with Transnet vending facility is not key at this point. Any supplier can submit a tender. It is only when you are awarded a contract that this becomes a necessity. You would be advised to register and be given a list of documents to submit for that purpose Yes, Page(s) 30 & 101 provide a list of evidentiary documents to be submitted when substantiating proof of location. Both partners must have a local address. If that is not the case, the lead partner must preferable have an appropriate local address. 	Mon 2024/04/29 10:07

		<p>details on the document or we create a JV name and write the JV name?</p> <p>6. Basically if we JV which partner should fill the document or any aslong we submit returnables for both parties and both parties sign declarations?</p> <p>Best regards.</p> <p>Director: A Bangeni</p>	<p>For JV</p> <ol style="list-style-type: none"> 1. A person nominated to represent the JV completes the forms on behalf of the JV, unless the form specifically needs both partners (as explained in item 1 above). Please read the rules regarding the structure of the JV in clause 2.1 of the tender data (Page(s) 15-16 and 61, especially part (b)1-3)(. It is also stated in clause C.2.13.4 in Page 37. There is also a requirement to be met in Page 80 (item 4). 2. The answer is as above. But when it comes to certificates: the B-BBEE must be consolidated and meet tender requirements as stated in clause C.2.23 of the Tender Data; the csd reports must be for each partner; tax certificates must be separate; cidb certificates must be for each partner, but they will be consolidated to form one. It is preferred that partners of the JV must consolidate their cidb grades using a cidb calculator and see where it will place them. for example, a calculator of two JV apartners can improve the cidb grading or pull it down. Please do this exercise before you submit. 3. Yes, the requirement is stated in clause 2.1 of the Tender Data (Page 16) and Page 61 of the returnable schedule (T2.2-01). 4. If the B-BBEE certificate is not consolidated, a tenderer loses B-BBEE points (on 90/10 point system, it losses 2 points; on 80/20 point system, it losses 4points) 5. You need to write the JV name 6. The answer is on item 1 above <p>You can also attend a tender briefing session on the 9th May to get more information. It is not compulsory, but it is advisable that you attend to get clarity on something or two. There are two briefings on that day, you can choose which to attend (10:00am or the 15h00 session). It is attended through a virtual platform</p> <p>Hope this clarifies the matter</p> <p>Regards,</p>

37.	Monday, April 29, 2024 12:28 PM	<p>I get your point</p> <p>But what confuses me is are we going to remove the BOQ in the tender document and install the one in an excel format?</p>	<p>Good day,</p> <p>That is not necessary to send both. The MS excel is for your own upkeep and convenience.</p> <p>We will only request a MS Excel BoQ if you are part of the Tenderers who are in the top 15.</p> <p>For purposes of tender submission, use that MS excel version BoQ (and then convert it to Pdf when done) or complete the document on Page(s) 181 - 251 of the tender document with a black pen or typed from a computer</p> <p>The other response is provided in the previous email (email dated 2024/04/29 12:40 below)</p> <p>Hope this matter is clarified.</p> <p>Regards,</p>	Mon 2024/04/29 12:44

It is not mandatory for all tenderers to use the Excel version.</p> <p>The Pricing data from page(s) 178 - 184 stipulates the instructions to be followed.</p> <p>The reason why there has been a provision of an MS Excel format BoQ, besides convenience for tenderers, it is to request all tenderers who would have made it to the Top 15 to submit their MS Excel BoQ for purposes of balancing rates. It is not a requirement that the excel format of the BoQ must be submitted with the tender at tender closure. Not all tenderers will have to submit this MS Excel version.</p> <p>The BoQ which must be submitted is the pdf version (which could be the same BoQ which was compiled in Excel but now converted into pdf).</p> <p>I hope this clarifies the matter.</p> <p>Regards</p>	Mon 2024/04/29 12:40

44.	Thursday, May 2, 2024 9:17 AM	<p>TNPA/2024/01/0024/53832/RFP (Etc)</p> <p>Good day</p> <p>I would like to inquire why your bids have excluded emerging companies? The reason I am asking this is because most of the jobs that will be performed under this bid will be for small amounts that require CIDB grading 1,2,3,4,5,6. I understand that the Budget for this project will be more that might require only CIDB grade 9 only to partake on this bid but it was going to be proactive of you if you have requested all grades to be in the pull of database where you can select from as and when the service is required unlike restricting this only to high cidb grading in exclusion of lower Cidb grading which exclude majority of emerging companies,</p> <p>Repairing of 5 lights or installation of 5 lights in the yard does not require CIDB grade 9 but grade 1. Having a database of service providers who have interest and experience in working in this project from various grades was going to benefit and grow all businesses irrespective of their grades. when you</p>	<p>Good day M/s xx</p> <p>Thanks for the enquiry</p> <p>The framework contracts which are being put up by Transnet are for limited works, because of the nature and urgency. Contractors with the stipulated capabilities are the only ones allowed to submit their tenders.</p> <p>Not all work regarding the same scope of works will be issued via Framework contracts. There could still be works / projects where Transnet could still invite tenderers outside the framework contracts. Contractors in the lower grades can then participate in those works.</p> <p>Regards</p>	Thu 2024/05/02 09:49

		<p>exclude grade one in your business while your company motto says transnet is an employer of choice how will it be employer of choice while it excludes emerging companies.</p> <p>It is very good if the pie is big and everyone has access to get a slice of the pie.</p> <p>The best way of dealing with this tender was to advertise for suppliers to be included in the database of electrical contractors with various grades. I saw this happening on transnet property on the building maintenance tenders which were advertised last month. please be considerate of the emerging companies, where are we going to get experience if we are excluded on tenders that we could be able to uplift our grades on.</p>

Thursday, May 2, 2024 5:05 PM	TNPA/2024/03/0021/60798/RFP - LEASES QUERY Dear Sir TNPA/2024/03/0021/60798/RFP - FRAMEWORK CONTRACTS FOR BUILDING WORKS IN VARIOUS TNPA PREMISES My question refers to a company address for a branch office. My company has its domicillium in Matatiele, Alfred Nzo District, Eastern Cape. I also have a branch in Durban, KwaZulu-Natal. I do not own the the property in Durban and have a valid lease in place. The owner of the Durban office where I lease does not give me the municipal rates statements and rather includes utility charges in my rental fee. The Bid document makes no mention of leases but rather refers to CIPC address, Eskom and municipal bills. Please kindly advise how Transnet will proceed should a company submit a lease agreement accompanied by a letter from the landlord and or an affidavit exempting the company from municipal rates because of non ownership of the property. I thank-you kindly. Regards	Clarified through an addenda 2 issued 10 May 2024 It was explained in all other briefing sessions after the 03 May 2024

71.	Friday, May 3, 2024 12:06 AM	<p>TENDER ENQUIRY: TNPA/2024/02/0043/56181/RFP</p> <p>In terms of capacity to evaluate the tender in question the three grades required will never have the same capacity.</p> <p>In comparing and putting grade four with the same requirements as the above grades required on this tender we feel like grade four is at the disadvantage.</p> <p>If we can draw your attention to the evaluation schedule we feel like it is unfair to require the same experience and the same highest contract value within all the grades and so fourth.</p> <p>In terms of CIDB the highest contract for the grades is as follows:</p> <ol style="list-style-type: none"> 1. Grade 4- Highest contract is R 6 000 000 2. Grade 5- Highest contract is R 10 000 000 3. Grade 6- Highest contract R 20 000 000 <p>According to this we feel like this tender is only made for Grade 6 contractors because of the evaluation criteria that says that in order to get full points you must:</p> <ol style="list-style-type: none"> 1. Have completed projects of value more than R10 Million <p>It is impractical for grade four to have acquired that to meet all the points only grade six.</p> <p>Also if one have already completed projects of that value please bare in mind that they already would have been sitting at Grade 7.</p> <ol style="list-style-type: none"> 2. Grade 4 must complete a project worth R 900 000 in order to qualify as Grade 4, now how come can a grade 4 have completed a contract worth a range between R 3 000 000 to R10 000 000? 3. Even Grade 5 must have completed a project worth R 1 500 000, now how come can these two grades meet a requirement of a range R 3 000 000 to R 10 000 000. <p>The issue is not limited to that, we feel like from the start the criteria should have been divided so that it covers all the grades concerned. We feel like this criterion only talks with grade six and discouraging other grades.</p> <p>Please find attached CIDB grading Booklet, please see table D on the attached.</p> <p>Kind Regards.</p>	<p>Thanks for the enquiry.</p> <p>The tender requirements are for contractors registered from cidb Grade 4 or higher. Cidb Grade 4 contractors are in a position of obtaining the minimum points of 60. The tender is not for grade 4 contractors only, or cidb grade 6 or 7. All qualifying contractors are allowed to submit their tenders.</p> <p>The tender has 5 functionality criteria. Prospective tenderers are encouraged to accumulate points across all of them. We are looking for contractors which have resources and capacity in all the fields of that Functionality criteria, not in one or two.</p> <p>Hope this clarify the matter</p> <p>Regards</p>	Fri 2024/05/03 09:05

Thursday, May 2, 2024 9:17 AM	<p>Good day Mr Qangani</p> <p>Briefing session earlier today refers.</p> <p>Lukub Developments raised concerns about exclusion of contractors in category of 3EB/EP PE.</p> <p>Our submission to the above and appeal are as follows:</p> <p>1) The advertised tender no TNPA/2024/04/00/11/61847/RFP is not advertised as Emergency contract.</p> <p>2) 3PE is eligible to tender as per CIDB regulations up to R3,600 000 which falls into grading designation 4 and because these framework contracts have no established contract value makes 3PE eligible.</p> <p>3) The recognition of PE status of a contractor is not limited to Development Programme, whether Transnet intends to have separate development programme in the future.</p> <p>4) Any construction work to be conducted in two, three years time can not be termed emergency.</p> <p>5) Selective approach in procurement which is being exercised in bid mention above is limited to Emergency procurement.</p> <p>In motivation of the above:</p> <p>The department is considering appointing 15 contractors per region which provides you with good cover in event of unintended consequences.</p> <p>Local companies have potential to benefit and grow. For instance I am based in East London, the value and demand for Electrical work may not be the same as other regions due to size of ports, which makes one size fits all approach disadvantage those with smaller ports.</p> <p>In conclusion:</p> <p>We appeal to your office to relax the condition excluding 3EB/EP PE.</p> <p>The qualification criteria in respect of past experience of contractor be aligned such that a contractor in grade 3 can submit appoint letter and reference letters specific to their grades.</p> <p>We hope that our plea will receive your favourable consideration.</p> <p>Kindly acknowledge receipt of email once received.</p> <p>Kind Regards</p>	<p>Good day M/s xxx</p> <p>Thanks for the enquiry</p> <p>The framework contracts which are being put up by Transnet are for limited works, because of the nature and urgency. Contractors with the stipulated capabilities are the only ones allowed to submit their tenders.</p> <p>Not all work regarding the same scope of works will be issued via Framework contracts. There could still be works / projects where Transnet could still invite tenderers outside the framework contracts. 107.		<p>Good day</p> <p>Thank you for your response but I still insist that there is no maintenance work that might require cidb grading level 6 and upwards unless it is new infrastructure construction or rehabilitation and new infrastructure installations. Maintenance is completely different with implementation of new projects. emerging companies are given opportunity to upgrade their Cidb Grading through maintenance because bigger companies will be afforded opportunity on new construction and installations. if they will also be given first preference on maintenance. That simply means that Transnet has no interest in developing emerging companies.</p> <p>I am urging Transnet to create room for emerging companies. That's my plea considering economic conditions that are affecting business and livelihood of people of this country. With those small</p>																																

		<p>maintenance projects we were able to feed our children and pay school fees and grow our business, but now it means that we must just close our business and die of hunger.</p> <p>I am urging you to reconsider these bids that were recently advertised. Their sole intention is to upgrade well resourced companies close doors for emerging companies. That's my submission</p> <p>Kind regards</p>

		<p>Thank you for the prompt response.</p> <p>The reason for the request is:</p> <ol style="list-style-type: none"> 1. We do not always know the exact date when the tender is out for tender, so we do loose a few days. 2. Due to the size of the BoQ to price, and order to get competitive and current market related prices for all materials, sub-contractors, etc, we are requesting additional time. Prices have to be sourced from Durban, as well as Richards Bay. The size of the BoQ has numerous trades and item numbers. <p>Hope this is favourable.</p> <p>Kind regards</p>	<p>Kindly check those platforms next week on Monday. The establishment costs also vary significantly per facility depending on where the contractor is based, and we believe that separate BOQ's will provide more realistic rates.The RFP indicates that the works are for various Premises in the Western Region, therefore can you please confirm which facilities are applicable to this contract because the following are listed in part C4:<ul style="list-style-type: none">Cape town facilitiesSaldanha facilitiesMossel Bay facilitiesEast LondonPort ElizabethRichards BayDurban <p>The figure below also indicates Ngqura as a facility to be considered? Thursday, May 9, 2024 12:42 PM	<p>Good day Tenders</p> <p>Please see the BOQ attached with queries we have on this tender document kindly could you respond at your earliest convenience.</p>	<p>Good day xx</p> <p>Thanks for the enquiry and apologies for the delays. Enquires are coming thick and fast</p> <p>Please consider some of the responses below:</p> <ul style="list-style-type: none"> - CE.1400, 14.4 Services (a) (ii), 15 000 months for running costs to 15 months - CE.2200, 22.23 Service ducts, ordinary pipes, you can correct the 11mm dia to be 110mm dia - CE.2300, 23.01, 23.03, 23.05 (a), (b), (d) - it has been referred to engineers to help. - CE2300, 23.13 Polyethylene sheeting (0.15mm thick) for concrete-lined open drains, yes DPC or DPM is the one to be considered - CE.2400, 24.11 welded steel fabric is ref 311 - CE.2600, 26.01, Supply precast...., Don't price anything in this line. It is supposed to be a sub heading for what is listed below (26.03 - 26.12). - CE.3300, 33.07, (b) in layer thicknesses exceeding 200mm, not 2mm as written - CE.4200, 42.08, it is 100mm diameter cores in asphalt paving, not 1mm cores - RD.01.M01.04, use the same rate as what is on CE1400 (line 14.4). the correct quantity is 13, not 13500. The drawings are not part of the document (it is stated in the Pricing notes) we request tenderers to make educated assumptions. Do consider that this is a carport for a site office. Not a permanent structure. - RD.W04 Repair of Potholes, RD.04.01(a) and (b) and RD.04.03 (a) and (b), allow / provide a rate for a size of 100mm x 300mm x 60mm deep potholes (per pothole). -RD.W14.02(a), this is an Error. It is indeed a heading. Don't provide any price in that line or row. - RD.W30.01(a) and (b), the descriptions must read as "500m interval distance). An addendum will be issued removing other line items in this segment and changing the number at 500m intervals for RD.W30.01(a) and RD.W30.01(b). There is no specific scope of works at the moment. Assume that the vegetation is not out of ordinary. Utilise the lump sum to price for those two-line items (at 500m intervals). This would be refined to contractors who make it to the panel. <p>Hope this assists to provide clarity.</p> <p>Please keep visiting etenders.gov.za and Transnet etender platforms to check the latest information uploaded. We are receiving numerous enquiries from many other tenderers on other areas, it therefore takes time to browse through the BoQ if the item is not specifically mentioned. It is also worth mentioning that the Tender document has stipulated that there are no drawings or detailed specifications accompanying this tender document, therefore contractors are encouraged to make educated assumptions in most items where there are no drawings using the information provided. Other areas will be clarified further when contractors are in the framework and there is a specific project to be executed. Items which the tenderer could not fully price for will be drawing in detail and a pricing schedule developed for tenderers to provide quotes for those specific items which were left out. A lot of those projects will come up in the results. Look for the ones you are interested to participate in. The region is written outside. You will see Western region in the tender document on the cover page of each.</p> <p>From the results, you will find two attachments under each tender: the tender (RFP) document and MS Excel BoQ. The documents are very close to each other, you may even believe that the MS Excel BoQ is not there.</p> <p>Alternatively, using an “Organ of Stage” selection under eTenders platform (on the “search by” function), kindly search “Transnet National Ports Authority” . Projects under Transnet National Ports Authority will come up. You will then find the project you are looking for. It has tender (RFP) documents and MS Excel BoQs.</p> <p>Check other pages (page 2, 3, 4,5) in the results list, if projects you are looking under “Transnet National Ports Authority” don’t show in Page 1 of the web page.</p> <p>There is an extension of closing date for all of them.</p> <p>In the BoQ please insert your own formulas to ensure that it calculates correctly</p> <p>Hope this clarifies the matter.</p>	Mon 2024/05/13 12:41

192.	Monday, May 13, 2024 5:13 PM	Good day I would like to ask if it is acceptable to submit a Tender in different folders in a separate manner because the size of a Tender Document is a bit bigger so it can't all be uploaded as it is... It must be spited but my concern is wouldn't you be confused? Thank you	Good day Kwenzeka Yes, you can upload different documents. It doesn't have to be one document. There is an extension of closing date in all tenders Keep checking the relevant platforms where you obtained the tender documents from to see whether there has not been any addendum issued. There will be few uploaded tomorrow (14 May). Hope this clarifies the matter. Regards	Mon 2024/05/13 17:47

196.	Monday, May 13, 2024 12:35 PM	<p>BOQ Clarification Questions</p> <p>Good day,</p> <p>I hope this email finds you well. I have a few questions regarding the BOQ for the Framework Contracts for Electrical Works in Various TNPA Premises (TNPA/2024/04/0011/61847). May you kindly provide clarity on the following:</p> <p>-For the labour and material rates, is the hourly or total rate for the duration of the contract needed? -For material, may you please expand on what is included under this cost?</p> <p>Where possible, may you please provide examples of the above pricing queries, particularly for the labour rates.</p> <p>Thank you in advance for your assistance and I hope to hear from you soon.</p> <p>--</p> <p>Many thanks,</p>	<p>Good day xxx</p> <p>Where the unit measure is No, the price to be provided the price to be provided for each (material or labour) is the total rate of installation what is being described</p> <p>The costs of each item includes acquisition, installing and making good. It is explained in the guidelines as "The Bill of Quantities has been prepared using commonly used or acquired items or works by Transnet, they may not necessary be accurate or reflect the actual work to be done. Tenderers must study the Bill of Quantities thoroughly and apply their minds in the determination of the rates or prices they offer. Where an item has not been properly described, the tenderer must assume that it includes obtaining it, delivering, installation and making good, therefore its price must be all inclusive."</p> <p>Hope this clarifies the matter</p>	Mon 2024/05/13 18:06

The list below is what they are mostly requesting. We are worried that we could run out of time if we do not receive responses urgently please.</p> <p>Thanks and Regards,</p>	<p>Thanks for the enquiry</p> <p>The word work package stage means you do not provide pricing at this stage</p> <p>All items listed in your question below (except Doors) including staircase (fire escape) will be omitted. There is enough information for doors for tenderers to make educated assumptions for purposes of pricing. An addendum to this effect will be issued and uploaded on the tender platform (etenders and Transnet etenders)</p> <p>Hope this clarifies the matter</p> <p>Kindly note that the tender closing date has been extended to 28 May 2024. Do look out for other addenda which have been uploaded in the platform. Few will be uploaded today.</p> <p>Thank you</p>	Tue 2024/05/14 11:12

207.	Wednesday, 08 May 2024 14:40	<p>Transnet TNPA/2024/01/0022/53830/RFP</p> <p>Good day</p> <p>As per today online briefing, please see a list of items which are impossible to price based on the current information.</p> <ol style="list-style-type: none"> 1. Bill 6 – item 76.12 to 76.15 and item 81 – we need a facebrick specification. – REASON – face bricks can range from 6500/1000 to 12000/1000 – it would be impossible to guess. 2. Bill 8 – item 86.22 to 86.25 / 86.31 to 86.32 / 86.45 to 86.47 – we need building layout and roof heights – REASON – there are so many different options of roof types that we cannot possibly guess which one you want, also we need details of wind categories to design to, which usually come from the engineers. Furthermore, are the roof trusses for tiles or roof sheets – these details all effect the design and cost. 3. Bill 8 item 88.1 and item 88.2 – the gutter size does not match the Ogee profile specified. 4. Bill 9 – item 89.19 to 89.23 – cannot price the roller doors in current detail – need clear specification including slat thickness also item 89.19 has no size. 5. Bill 9 item 90.1 to 93.1 – impossible to price joinery without details and drawings. Description says including all ironmongery – but there are no details or specifications. 6. Bill 9 item 94.1 and 94.2 – there are no door sizes. 7. Bill 12 – item 102.6 to 102.13/ 102.21 – we need a tile specification or a PC sum for the tiles, we cannot price a guess here as the range of tile prices is quite vast. 8. Bill 14 – item 105.7 to 105.11 – we need detail of window types and opening section, a fixed pane window is much cheaper than a window with openings. 9. Bill 14 item 110.1 to 110.11 – we need details of window and door types and opening sections and ironmongery requirements. 10. Bill 14 item 110.12 – it is impossible to price this item without a drawing – we need size of staircase – how many floors etc – these are usually engineer designed. <p>RE: Transnet TNPA/2024/01/0022/53830/RFP Good day Siphiwo</p>	<p>Good day xxx</p> <p>Apologies for the delayed response, we were inundated by more questions from contractors in the category 4-6 since the tender was scheduled to close on the 15 May.</p> <p>We have issued an addendum to address some of the issues mentioned in your email and also in the BoQ generally. Check Etenders.gov.za platform under the this project.</p> <p>We have also extended the tender by a period of a week</p> <p>We will provide a response next to each request in a red text and highlight the response. If the response is not fully addressing the question, please elaborate further on what more information is needed:</p> <p>Responses:</p> <ol style="list-style-type: none"> 1. Bill 6 – item 76.12 to 76.15 and item 81 – we need a facebrick specification. – REASON – face bricks can range from 6500/1000 to 12000/1000 – it would be impossible to guess. The brickwork on item 76.12 and 76.15 has been reasonable specified in the description. Tenderers are able to make educated assumptions for the detailed description provided. We will issue an addendum to describe the type of facebrick and describe it as “Rustgold FBS” clay brick or “Nala” or “Protea” Travestine FBS clay face brick or similar sabs approved product, size 222 x 106 x 73mm, bedded and jointed in Class II mortar and pointed with recessed vertical and recessed horizontal joints, suitable for exposure zones 1-2; 2. Bill 8 – item 86.22 to 86.25 / 86.31 to 86.32 / 86.45 to 86.47 – we need building layout and roof heights – REASON – there are so many different options of roof types that we cannot possibly guess which one you want, also we need details of wind categories to design to, which usually come from the engineers. Furthermore, are the roof trusses for tiles or roof sheets – these details all effect the design and cost. – we have issued an addendum and omitted some of these items for pricing at this stage. Kindly visit the etenders.gov.za platform where this document is located and pick up some of the addenda issued to date. Others will be issued on Wednesday, 15 May. 3. Bill 8 item 88.1 and item 88.2 – the gutter size does not match the Ogee profile specified. The idea it is to have rates per each item. At the “work package stage”, a proper gutter profile that match the items (eaves and others) specified in Item 88.1 and 88.2 will be drawn up 	Tue 2024/05/14 20:53

218.	Wednesday, May 15, 2024 10:11 AM	<p>RE: Transnet TNPA/2024/01/0022/53830/RFP</p> <p>Good day Siphiwo</p> <p>Please see un-resolved questions below that was sent yesterday.</p> <p>11. Bill 6 – item 76.12 to 76.15 and item 81 – we need a facebrick specification. – REASON – face bricks can range from 6500/1000 to 12000/1000 – it would be impossible to guess.</p> <p>12. Bill 8 – item 86.45 to 86.47 – we need building layout and roof heights – REASON – there are so many different options of roof types that we cannot possibly guess which one you want, also we need details of wind categories to design to, which usually come from the engineers. Furthermore, are the roof trusses for tiles or roof sheets – these details all effect the design and cost.</p> <p>13. Bill 8 - item 88.1 and item 88.2 – the gutter size does not match the Ogee profile specified.</p> <p>14. Bill 9 – item 89.19 to 89.23 – cannot price the roller doors in current detail – need clear specification including slat thickness also item 89.19 has no size.</p> <p>15. Bill 12 –102.13/ 102.21 – we need a tile specification or a PC sum for the tiles, we cannot price a guess here as the range of tile prices is quite vast.</p> <p>16. Bill 14 – item 105.7 to 105.11 – we need detail of window types and opening section, a fixed pane window is much cheaper than a window with openings.</p> <p>17. Bill 14 item 110.12 – it is impossible to price this item without a drawing – we need size of staircase – how many floors etc – these are usually engineer designed.</p>	<p>Good Day XX</p> <p>We have tried to provided clarity next to each question by providing responses in red text and highlighted responses in yellow.</p> <p>We are not sure which questions have not bee responded to. We are struggling to see the gaps</p> <p>Please clarify further</p>	Wed 10:25 2024/05/15

220.	Wednesday, May 15, 2024 10:18 AM	<p>Good morning,</p> <p>I hope this email finds you well. May you kindly provide me with an electronic BOQ for the Framework Contracts for Electrical works in various TNPA premises (TNPA/2024/03/0024/60801) bid. I looked for it on the National Treasures e-Tender Portal and I was unable to find it. I also looked for it on the Transnet portal and was unable to find it.</p> <p>Any advice or assistance you can offer in this regard will be much appreciated.</p>	<p>Thanks for the enquiry</p> <p>It is there. It has been downloaded by other tenderers as well.</p> <p>The tender documents for Western region and other regions and their respective MS Excel soft copy (electronic copy) of the BoQs of each document are available on the Home Page - eTenders Portal (eTenders.gov.za) platform.</p> <p>Please search for it using the project number or project. A lot of those projects will come up in the results. Look for the ones you are interested to participate in. The region is written outside. You will see Western region in the tender document on the cover page of each.</p>	Wed 10:41 2024/05/15

			<p>From the results, you will find two attachments under each tender: the tender (RFP) document and MS Excel BoQ. The documents are very close to each other, you may even believe that the MS Excel BoQ is not there.</p> <p>Alternatively, using an “Organ of Stage” selection under eTenders platform (on the “search by” function), kindly search “Transnet National Ports Authority” . Projects under Transnet National Ports Authority will come up. You will then find the project you are looking for. It has tender (RFP) documents and MS Excel BoQs.</p> <p>Check other pages (page 2, 3, 4,5) in the results list, if projects you are looking under “Transnet National Ports Authority” don’t show in Page 1 of the web page. In the BoQ please insert your own formulas to ensure that the BoQ calculates correctly. Where we have issued an addendum affecting the BoQ, we have issued a section of that BoQ as part of the addendum.</p> <p>The tender closes on the 24 May 2024. We have issued several addenda. Keep visiting etenders.gov.za and Transnet etender platforms where you will get this tender document from. Other addenda will be uploaded today (15 May).</p> <p>Hope this clarifies the matter.</p> <p>Regards</p>	
221.	Wednesday, May 15, 2024 10:32 AM	<p>Extension to Closing Date - Framework Contracts for Building Works Track in various TNPA Premises - Western Region for a Period of 3 Years</p> <p>Dear Siphiwo,</p> <p>We trust that this email finds you well.</p> <p>We, herewith, wish to request an extension to the closing date of this tender. We require additional time for submission of a competitive and accurate bid.</p> <p>We look forward to your response and thank you for your assistance in this regard.</p> <p>Kind Regards,</p>	<p>Good day xxx</p> <p>Thanks for the enquiry</p> <p>The closing date has been extended for all of the tenders, mostly by a week. We have issued several addenda to this effect.</p> <p>Kindly visit etenders.gov.za or Transnet etender platforms where you got this tender document from prior your tender submission. Other addenda will be uploaded today (15 May). We already have some addenda attached next to the adverts / tender document.</p> <p>Please ensure that you utilise the time granted to complete your tenderer and submit timeously.</p> <p>Hope this clarifies the matter.</p> <p>Regards</p>	Wed 10:44 2024/05/15

225.	Wednesday, May 15, 2024 11:07 AM	<p>Addendum_ SACPCMP</p> <p>Good day Siphiwo</p> <p>I hope this email finds you well. I am writing to seek clarification regarding the attached addendum.</p> <p>After careful review of the Addendum published 12 May 2024, we noticed on the page containing the Part T1.2: Tender Data and T2.2-03 Schedule the addendum number 04 has been scratched out and a 03 has been placed there instead. However on the page where we should sign and acknowledge receipt of the Addendum the reference 04 has been used. Does this mean this is Addendum No.4 or 3</p> <p>Clarity on this would greatly assist us in ensuring the document is filled out accurately.</p> <p>We look forward to your response.</p>	<p>Good day xxx</p> <p>Thanks for the enquiry</p> <p>We are trying to align addenda issued to date. 235.	Thursday, May 16, 2024 12:02 PM	<p>Good morning Siphiwo,</p> <p>I would like to ask for more information regarding Addendum 6 and 12 for All grade 4-6 and 7-9.</p> <ol style="list-style-type: none"> 1. The items which have “Work Package Stage” are we suppose to price it ? . 2. Can you please assist us with the updated excel BOQ 3. Some of the items have different quantities on the addendum BOQ but there is no revised on those items, so are we suppose to use the old quantities. 	<p>Good day xxx</p> <p>Thanks for the enquiry</p> <p>“Work package stage” means there is no need for tenderers to provide prices at this stage of tendering. Prices will be requested later to the contractors in the panel. Only focus on orange / brown filled cells.</p> <p>The intention of Addendum 6 was to communicate changes mentioned in the body of the addendum. We were hesitant to only extract the affected line items in the BoQ and provide a BoQ with only one line, so we ended up attaching the entire section. Other items are therefore having no changes from the original BoQ. The change is only what is mentioned in the BoQ (change in the description, unit of measure or quantities)</p> <p>The Grade 4-6 tender has a BoQ which has different quantities with the Grade 7-9 BoQ.</p>	Thu 2024/05/16 12:25

			<p>We are now issuing a clarification to tenderers to instruct them not to price the certain items which came as annexure accompanying that addendum 6, i.e. omit pages 6-10 (all electrical items) and only focused on building works. They were mistakenly included in that addendum. The rest is as is.</p> <p>Do indicate the items which have differing quantities. We will provide clarity or corrections.</p> <p>Hope this clarifies the matter</p> <p>Regards</p>

Addenda 6,7 & 8 are not applicable to CE class of works, hence you don't see them next to this tender • Add 9 – building and electrical only – Yes, we were moving a closing date away from a public holiday. No need to make changes on CE classes of works (7-9) • Add 11 – but when you download and open the addendum, it reads ADDENDUM 10 - huge revised bill of quantity – the section (page) which we expect you to return is written "Addendum No. 11". There is an error on Page 1. The changes in Addendum 11 are only taking place in line items indicated in the table. There are no changes in other line items in the BoQ in that attachment. We were hesitant to only extract the affected line items in the BoQ and provide a BoQ with only three lines, so we ended up attaching the entire section. Other items are therefore having no changes from the original BoQ. The change is only what is mentioned in the BoQ (i.e change in the description, unit of measure or quantities). Other tenderers also preferred to work with the whole page of the BoQ where it would assist them to add up all these changes with the rest of the items, and substitute the original page with this page which we have provided, <p>If you have six addenda:</p> <ul style="list-style-type: none"> • No.1 (Valid leases), • No. 1 (Civil works: various), • No. 3 (Extensions of closing date), • No. 4 (SACPCMP), • No. 5 (financial), • No. 11 (Kerbs, Changerooms). <p>No. 9 is not necessarily applicable to you (as CE).</p> <p>So the six you have is the correct number for now. Monday, May 6, 2024 1:20 PM	<p>3PE status from Bid No TNPA/2024/04/00/11/61847/RFP</p> <p>Good day Mr Qangani</p> <p>Briefing session earlier today refers.</p> <p>XXXX raised concerns about exclusion of contractors in category of 3EB/EP PE.</p> <p>Our submission to the above and appeal are as follows:</p> <p>1) The advertised tender no TNPA/2024/04/00/11/61847/RFP is not advertised as Emergency contract.</p> <p>2) 3PE is eligible to tender as per CIDB regulations up to R3,600 000 which falls into grading designation 4 and because these framework contracts have no established contract value makes 3PE eligible.</p> <p>3) The recognition of PE status of a contractor is not limited to Development Programme, whether Transnet intends to have separate development programme in the future.</p> <p>4) Any construction work to be conducted in two, three years time can not be termed emergency.</p> <p>5) Selective approach in procurement which is being exercised in bid mention above is limited to Emergency procurement.</p> <p>In motivation of the above:</p> <p>The department is considering appointing 15 contractors per region which provides you with good cover in event of unintended consequences.</p> <p>Local companies have potential to benefit and grow. For instance I am based in East London, the value and demand for Electrical work may not be the same as other regions due to size of ports, which makes one size fits all approach disadvantage those with smaller ports.</p> <p>In conclusion:</p> <p>We appeal to your office to relax the condition excluding 3EB/EP PE.</p> <p>The qualification criteria in respect of past experience of contractor be aligned such that a contractor in grade 3 can submit appoint letter and reference letters specific to their grades.</p> <p>We hope that our plea will receive your favourable consideration.</p>	<p>Good day Mr xxx</p> <p>Apologies for the delayed response.</p> <p>I had forwarded an enquiry to colleagues from TNPA to assist with clarity on the matter</p> <p>The CIDB grade 4EB and 4EP contractors are already considered to be in the development stage and that category is already oversaturated. A search form cidb reveals that there are more than 50 contractors in the Eastern Cape province alone.</p> <p>We have a requirement of 15 contractors per province per framework (because of limits (budget, work) that we have).</p> <p>These tenders are opened to all contractors in the country as per cidb regulations. We will still not be able to accommodate all grade 4 EB / 4EPs from the Buffalo city metro region alone. Many will not be able to make it to the list.</p> <p>Besides not allowing "PE" status because of the nature of the work to be done in the Framework, expanding to Grade 3s for other purposes is therefore not a practical option for Transnet.</p> <p>Transnet is in a process of setting up an SMME development framework which will assist in the development of suppliers / contractors in the lower grades. That work is in a formation stage</p> <p>Hope this clarifies the matter</p> <p>Regards</p>	Thu 2024/05/16 16:59

		<p>we query this exclusion of qualifying companies as per CIDB you mention a development program. It sound as escaping reason to allow Transnet to continue sidelining qualifying contractors in 3EB/PE.</p> <p>You reasoning clearly demonstrate that Transnet is overburdened by adjudication of responses, 3PE contractors employ qualified and experienced personnel, you have no basis to exclude them.</p> <p>We give you seven working days for opportunity to reevaluate your decision furthermore you leave us with no option but to approach the courts and other avenues in order to address this matter. This practice is unfair, we interpreted your position as exclusion of Black contractors, who posses PE status?</p> <p>In the meantime I wish to ask that closing date for the bid be extended until you respond to our appeal for you to include these contractors.</p> <p>I promise you Sir, these sort of tendencies have been going on for too long unchallenged, not this time around. We will exhaust all legal avenues at our disposal and test legality of these conditions should you retain your position to exclude.</p> <p>I await your favourable review.</p> <p>Kind Regards xx</p>	<p>State. This provision must be used only when there are support mechanisms in place to support Potential Emerging enterprises (i.e financial, management and other support).</p> <p>As things stand, Transnet does not have these measures in place. The policy or framework for Supplier Development (which will provide for some or all of these measures) is still in the formation stages within Transnet. It is being taken through consultation processes.</p> <p>We are therefore advised to adhere to the existing Transnet policies and retain the current tender requirements as they are.</p> <p>I have mentioned earlier in the briefing sessions that these Framework Contracts which are being established are intended to fast track the attendance of Transnet infrastructure needs. Something which is not only a concern to Transnet, but to the entire country's economy.</p> <p>It is worth mentioning that Transnet will not only issue all its tenders through Framework contracts, other types of procurements (Open tender and Request for Quotations) will still be used. Your firm may qualify for those projects and get an invitation to apply.</p> <p>This response does not in anyway stop your firm from making a compliant submission in response to this tender (through a JV or alone), SCM committees will apply their minds and consider your submission against Tender requirements, Transnet policies and other related prescripts. If they see that you meet all minimum requirements of a tender, then your firm will be considered.</p> <p>If you are not satisfied by their decision, you can still use Transnet internal remedies to appeal their decision.</p> <p>This matter is therefore considered finalised from our side.</p> <p>Regards</p>

The latest addendum being Addendum No. 20, which deals with some parts of the scope. The last line in Tender Addendum No 20 deals with an extension of a cut off date for clarifications. That is, 30 May 2024.</p> <p>There is a high possibility of a new addendum to be issued today (Addendum No 23) to clarify the unit of measurement for Skirting (Bill No. 12, item 102.10 & 102.12). it will change it from "m2" to "m".</p> <p>We would generally not encourage any submission of a tender to our platform before the cut-off date for clarifications arrives, since some Questions trigger responses which could change scope of work or changes in the BoQ.</p> <p>Tender submissions should preferably be made from 01 to 04 June 2024 when it is reasonably certain that there will be no further addenda to be issued.</p> <p>Hope this clarifies the matter.</p>	Tue 2024/05/28 12:18

See the responses in the attached spreadsheet.</p> <p>Some of the items were already responded to in the previous addenda. Others are completely new.</p> <p>We will process changes through an addendum (No.24) in areas where we have agreed to your request. We intend to communicate that before the end of the day today.</p> <p>I must emphasise once again that the closing date for clarifications and questions is Thursday, 30 May 2024. From Friday, 31 May, we will publish all relevant questions and answers that</p>

It enables you to make necessary insertions for purposes of calculations.</p> <p>You also need to consider all the Addenda which have been issued to date. The latest one is Addendum No.21. There is a chance of a new addendum (No.24) to be issued later today or on tomorrow (you can access it on Thursday).</p> <p>We have issued a Summary of Addenda issued to date. The latest of those is dated 24 May 2024. It summarises all the addenda that have been issued up to now. You will see which of the addenda are applicable to Electrical works. That sub region could just have 2 projects for the entire duration of the Framework.</p> <p>TNPA will evaluate only one Tender offer (SUM) per tenderer per class of work per region, splitting BoQs may end up giving us distorted totals.</p> <p>We therefore appeal to tenderers (all are working with the same information) to ensure that they devise means to submit reasonable rates within the set parameters.</p> <p>Hoping this clarifies the matter</p> <p>Regards</p>				
302.	Tuesday, May 28, 2024 4:16 PM	<p>TNPA/2024/01/0022/53830/RFP</p> <p>Hi</p> <p>Thanks for the feedback.</p> <p>Please can you also consider;</p> <p>The tiling section (bill 12) is very confusing, even after the addendum issued, there are tiles you have specified that are no longer available. Would it not be prudent to make all tile items a prime cost.</p> <p>Then;</p> <ul style="list-style-type: none">bill 9 - item 93.1.....please clarify if this has been changed to work package stage or is it still applicable (must be priced).Bill 14 – 110,9 / 110. 10 / 110.11.....please clarify if this has been changed to work package stage or is it still applicable (must be priced).	<p>Good day xx</p> <p>Thanks or the enquiry</p> <p>Tiling has been simplified; we have looked into available tiles in the market.</p> <p>Most of those tiles are available in the market, a study was made before an addendum was issued. Where a tile type is not readily available or has been discontinued, an alternative can be proposed and quoted for by the tenderer, hence the word “or similar approved”.</p> <p>We are also trying to avoid having a panel of contractors who would be pricing a lot of items once they are in a panel (Framework). It would be unfair down the line to those who are not admitted to the framework, because, given a fair chance, they may offer us better prices if it is opened to them to also price (for many of those items) on Year 2, for example. We just need to establish cost parameters. Other details can be refined once the Framework is in operation.</p> <p>The answer to the other question is answered by Addendum 6. We have omitted those items at this stage. They could be unpacked at a Work Package stage. I have taken an extract of Addenda 06.</p> <p>Hope this clarifies the matter</p> <p>As communicated before, we will issue Addendum No 23 by Thursday morning to clarify the unbit measure of Skirting (item(s) 102.10 and 12)</p> <table><tr><td>(All Building Works class projects – Joinery fittings)</td><td>BILL NO. 9 JOINERY FITTINGS (PROVISIONAL) Item(s) 90.1 – 94.2</td><td>BILL NO. 9 JOINERY FITTINGS (PROVISIONAL) Omitted (Detailed specification and designs not yet available)</td></tr></table>	(All Building Works class projects – Joinery fittings)	BILL NO. 9 JOINERY FITTINGS (PROVISIONAL) Item(s) 90.1 – 94.2	BILL NO. 9 JOINERY FITTINGS (PROVISIONAL) Omitted (Detailed specification and designs not yet available)	Tue 2024/05/28 18:25

		Kindly advise on which one of the BOQ addendum for 7-9CE must we attend to because we have received more than one	<p>The BoQ which was sent was both in pdf and MS excel. Select any of the two to complete.</p> <p>We advise tenderers to look at the changes mandate in Addendum 7 and compare the information which what is in the BoQ.</p> <p>If it matches, then price for it. If not, kindly update the BoQ (the editable version).</p> <p>Tender addenda No. 18, 19 and 22 have updated some elements which are there. Verify the BoQ of addendum of each of those.</p> <p>What we have done on BoQ of addendum 18 & 19, we have updated all line items (which were changed in the previous BoQs alongside with the latest change in the current Addenda 18 & 19).</p> <p>For example, we may have changed an item in CE12.01 in the previous addendum and in addendum No. 18 or 19 we make a change in item CE.12.05, the BoQ of Addendum 18 or 19 will accommodate the change which was made in CE.12.01 as well.</p> <p>Hope this clarifies the matter</p> <p>regards</p>

Some details around each items will be explained in detail when contractors in the panel are invited to submit quotes. We therefore believe that a reasonable estimation and educated assumptions could be made in those item.</p> <p>Contractors can make necessary provision for pricing for this item in a electrical infrastructure project within a Port site. There is nothing extra ordinary is expected. If there is, contractors would then be afforded an opportunity to provide prices. Therefore, no change will be made.</p> <p>Clarifications on the foundation base will made and communicated through Tender Addendum No. 24.</p> <p>A friendly reminder that the tender closes next week. The closing date for questions and comments relating to this project is today, 30 May 2024. On Friday, 31 May, no questions relating to Scope of Work and BoQ will be responded to. We need to allow tenderers to finalise their tenders and submit timeously.</p> <p>Hope this clarifies the matter.</p> <p>Regards</p>	Thu 2024/05/30 16:15

Thursday, May 30, 2024 3:02 PM	<p>Framework Contracts For Building & Civil Works Closing Dates</p> <p>Good Day Mr Qangani</p> <p>I trust that you are well and having a proactive week</p> <p>Good Sir, I have a great interest in bidding for the 4-6CE, 7-9CE, 4-6GB and the 7-9GB. I noticed that the closing dates have been extended. When I look at the addendum issues they conflict with the dates on the document. For example in one of the addendums it says that 7-9GB has been extended to the 6 June 2024 and the document says 25 June 2024.</p> <p>Your clarity on the exact closing dates for all four frameworks will be highly appreciated Good Sir.</p> <p>Thank you</p>	<p>Good day zzz</p> <p>Thanks for the enquiry</p> <p>The closing dates for tenders are as follows:</p> <ul style="list-style-type: none"> - Grade 7-9 (all regions): GB closes 05 June 2024 (except 7GB- 9GB Western region which closes 25 June 2024), - Grade 7-9 (all regions): CE - 06 June 2024 - Grade 7-9 (all regions) EB / EP - 07 June 2024 - Grade 4-6 (all regions): closes 05 June 2024, (except 4EB/EP- 6EB/EP Central region which closes 14 June 2024) <p>A friendly reminder that the tender closes next week, as indicated above. We are finalising the response to all tenderers so that they can finalise their tenders and submit timeously.</p> <p>We can however clarify that there is no revised BoQ to be issued. The reason being that most Tenderers have already downloaded an original BoQ and worked on it. The changes that have been coming progressively, are then factored as and when they come.</p> <p>We also issued an editable version of the BoQ to enable an editing ability by the tenders, whenever there are new changes made</p> <p>We therefore appeal to all tenderers to make the changes in the BoQs the downloaded with due consideration to all addenda issued to date.</p>	Fri 2024/05/31 12:38																		

			<p>The QnA clarifications also provide some clarity to other questions asked by tenderers. The last QnA document (Part 3) which contains latest questions and responses asked will be uploaded today.</p> <p>Hope this clarifies the matter.</p> <p>Regards</p>
