1. INTRODUCTION / SCOPE of Work

This specification is for the:

#	TASK	REQUIRED
1	Supply	✓
2	Documentation	✓
3	Testing	✓
4	Training	✓
5	Commissioning	

#	ITEM	REQUIRED
1	Supply, delivery, testing of magnetic drilling machine for PD Business in Durban.	✓

2. SITE INSPECTION

- 2.1 All prospective contractors shall be required to undertake a compulsory site inspection to fully acquaint themselves with all aspects involved.
- 2.2 Arrangements to visit the site and confirmation of the date and time of the site inspection shall be made with Transnet Engineering Contract Manager.
- 2.3 The site inspection certificate shall be completed and countersigned by the Contract Manager on the day of the visit and must be submitted with the tender documents.

3. INFORMATION REQUIRED

- 3.1 Offers will not be considered unless full particulars and sufficient literature are provided at the tendering stage to enable Transnet Engineering Technical Officers the opportunity to assess each technical offer properly.
- 3.2 Prospective Contractors will complete the relevant questionnaire in full and must indicate whether their offer complies with each item of the specification
- 3.3 Should there be insufficient space for furnishing full details; contractors shall provide the additional details in their covering letter. The additional details shall be numbered in accordance with the applicable clause specified in the specification.
- 3.4 As prospective contractors are considered to be experts in their field, they are obliged to identify any shortcomings, such as omissions or sub-standard requirements, to the completeness of this specification. These must be brought to the attention of Transnet Engineering at tender stage with alternatives to address these shortcomings. However, each offer shall be quoted for separately.

4. TECHNICAL REQUIREMENTS

The following regulation and codes must be complied with:-

- The Occupational Health and Safety Act – Act 85 of 1993.

- 4.1 Except where otherwise provided for in the specification, all equipment offered will comply with the requirements of the relevant standard specifications of the SABS, if published, otherwise with the relevant standard of the British Standards Institution in force at the time of tendering.
- 4.2 Where equipment offered complies with the recognized standards of the country of manufacture and not specifically with the standards required by this specification, such equipment will be considered at the discretion of Management. In this case, tenders shall state fully all respects in which the equipment departs from the standard laid down in this specification.
- 4.3 The successful tender will at the conclusion of the installation provide a document along the lines “that the installation complies with national/international requirements and that all selected /designed items are compliant with Act 85 of 1995 and SABS practices applicable to the installation. The equipment has been commissioned/ calibrated and employees as specified have been trained and found competent to operate the plant.”

5. SPECIFIC REQUIREMENTS

Any person with the intention of tendering shall ensure that the information below is complied with. The information or requirements below are binding and must be complied with.

- 5.1 Operational Parameters
 - Refer to machine specifications.
- 5.2 Environment
 - Indoors under dusty industrial conditions, and refer to section 11 for external conditions.
- 5.3 Specifications for the machine

ITEM	REQUIREMENTS	DETAILS OF OFFER Confirm Compliance by writing “Yes” or ticking “✓ ”
5.3.1	Technical Data	
5.3.1.1	Rated input power: 1.200 W (1200 W)	
5.3.1.2	No-load speed, 1st gear: 50 – 250 rpm	
5.3.1.3	No-load speed, 2nd gear: 100 – 510 rpm	
5.3.1.4	Weight: 14.7 kg	
5.3.1.5	Drill spindle connecting thread: MT 2 – DIN 228	
5.3.1.6	Tool dimensions (width): 196 mm	
5.3.1.7	Tool dimensions (length): 274 mm	
5.3.1.8	Tool dimensions (height): 444 mm	
5.3.1.9	Voltage, electrical: 220–230 V	
5.3.1.10	Drilling diameter in steel: 1.5 / 50 mm	
5.3.2	It shall come with <u>the following items</u>	
5.3.2.1	Adapter for the annular cutter	
5.3.2.2	Carrying case	

ITEM	REQUIREMENTS	DETAILS OF OFFER Confirm Compliance by writing "Yes" or ticking "✓"
5.3.2.3	Coolant tank	
5.3.2.4	Coolant tank holder	
5.3.2.5	Crank handle	
5.3.2.6	Hex key 3 mm	
5.3.2.7	Hex key 4 mm	
5.3.2.8	Hex key 6 mm	
5.3.2.9	MT2 drill drift	
5.3.2.10	Pilot pin	
5.3.2.11	Reduction sleeve (MT2/MT1)	
5.3.2.12	Safety strap	
5.3.3	Noise/vibration info:	
5.3.3.1	Sound pressure level: 90 dB(A). Sound power level: 110 dB(A). Uncertainty K: 3 dB.	
5.3.3.2	The recommended magnetic drilling machine is a Bosch GBM 50-2 Professional or equivalent magnetic drilling machine or superior magnetic drilling machine.	
5.3.3.3	Catalogues containing pictures and technical parameters/data to be attached in the bid documents.	
5.3.3.4	Documentation: 3 sets off hard copies each with a memory stick containing documentation in PDF Format. <ul style="list-style-type: none"> • Operating Manual. • Maintenance Manual. • Electrical Schematics. • Mechanical Drawings. • Parts List. 	

5.4 Markings

- All labels and markings shall be indelible and only removable by deliberate intent.

5.5 Safety Features

- The machines shall have a fail to safety protection systems.

5.6 Testing

- All prescribed tests shall be carried out on equipment as well as the testing .
- Transnet also reserves the right to carry out any check tests on the equipment.
- Notwithstanding the successful completion of tests, the contractor will still be responsible for the efficient operation of the equipment.

5.7 Commissioning

- **A testing period of 1 month (744 hours for 24/7 shifts and 248 hours for 8 hour shifts).**
- **No equipment will be accepted by Transnet without the satisfaction of the conditions above.**
- The contractor shall be fully responsible for any damage caused to all supplied equipment to Transnet Engineering's assets during the supply, delivery, testing and commissioning. The supplier shall conduct a risk assessment as to identify anything that might hinder the installation of the required equipment.

5.8 Spares

- The successful tenderer shall supply Transnet Engineering with three sets of blown out diagrams and schematics of the complete machine as well as a detailed copies of the list of critical spares for all equipment including OEM numbers.
- The tenderers shall indicate the availability and required lead times for the spares considered to be critical for the successful operation of the equipment.

5.9 Warranty

- The contractor shall undertake to repair all faults due to bad workmanship and/or faulty materials during a period of twelve calendar months, calculated from the date that the completed plant installation is accepted by Transnet Engineering.
- Any latent defects that become apparent during the guarantee period shall be rectified to the satisfaction of Transnet Engineering at the cost of the supplier.
- The contractor shall undertake work on the rectification of any defects that may arise during the guarantee period within 7 days of being notified of such defects.
- **The equipment shall come with 1 year warranty.**

5.10 After-Sales Service

- The successful tenderer shall provide Transnet Engineering with acceptable proof that spares can be easily and speedily procured for the equipment within 7 working days through agents locally.

The following must be supplied on handover of the machine:

- Performance Test certificate.
- Certificate of calibration.
- Electrical, electronics and mechanical schematic drawings for all components.
- Three (3) maintenance manuals and parts catalogues shall be supplied in hardcopy format with a CD of manuals in PDF format with each set.
- Three (3) operating and maintenance manuals and schedule for all components shall be supplied in hardcopy format with a CD of manuals in PDF format with each set.
- Operator and Maintenance staff training for less than three people.

Note: All work to be completed in each respect by suitably qualified person

6. HEALTH AND SAFETY REQUIREMENTS

- 6.1 All equipment and installation whether detailed in this specification or not shall comply with the requirements of the Occupational Health and Safety Act 85 of 1993 as amended by applicable local authorities. All equipment shall be designed to **fail to safety**. Sudden power losses must not have an adverse effect on equipment and shall not unduly delay return to operation after power is restored.

6.2 All the necessary safety equipment such as guards over rotating equipment shall be supplied and the equipment shall comply fully with all the requirements of the South African Occupational Health and Safety Act, Act 85 of 1993. At all times during the manufacture, assembly and testing of the equipment the contractor will be responsible for the safety of all persons on site and the equipment.

6.3 Safety Induction:

Prior to establishing on site, it is an explicit requirement of this contract that all of the Contractor's personnel directly involved with this contract, including those of sub-contractors, attend a **Safety induction course**. Transnet will provide the course free of charge and attendance is compulsory for all personnel under the control of the Contractor who, during the duration of the contract, will be present on site whether on a full time or adhoc basis.

The contractor must allow for all additional charges because of these requirements as no claims for extras whatsoever will be entertained in connection with the foregoing. A safety file and associated requirements shall be communicated to the successful tenderer.

6.4 Risk Assessment:

The successful contractor is required to conduct a Risk assessment to ascertain all potential risks associated with this project. The completed risk assessment is to be formally submitted to the Risk department via the project manager at least two weeks prior to the commencement of the actual project.

7. SPECIALIST SUB-CONTRACTORS

7.1 Only specialist sub-contractors who have previously successfully completed work of the type and extent specified in this document should be engaged.

The tenderer shall provide the technical officer with sufficient proof of having suitable experience regarding the design and manufacturing of similar equipment. To this end, complete and detailed reference list shall be submitted with the tender. Reference list shall include addresses as well as contact person who may be visited for inspection of the equipment during the adjudication period.

7.2 The tender shall submit a complete list of proposed sub-contractors and suppliers of major components with his tender.

7.3 The tenderer shall be prepared to commit themselves in writing to the technical officer with an adequate, experienced and stable project team for the duration of the contract.

7.4 Transnet Engineering will not consider any Tenderer's offer that, in the sole opinion of Transnet Engineering, does not have adequate experience in the design and manufacture of such equipment.

7.5 Contractors shall do the installation simultaneously with other contractors on-site busy with other work and shall plan work that it integrates with other work performed.

8. MATERIAL AND WORKMANSHIP

- 8.1 Machinery shall be offered complete in all respects, including all standard Equipment normally offered by manufactures, all of which shall be specified in detail.
- 8.2 The equipment, as made and supplied, shall be complete in every respect, of modern design, using the most advanced proven technology extensively supported by reputable local companies, and be built to good engineering practices.

Tenderers shall supply a list of all the main components (mechanical, electrical etc.) proposed as well as the addresses of the local support companies.

- 8.3 All parts and components shall be adequately protected against damage and corrosion during shipping, transport and storage.

Should any of the items called for be standard equipment, then the words “Standard Equipment” shall appear against the item.

NB: Tenderers shall indicate clause-by-clause either that they comply in every respect with the specific requirements, or if not, exactly how it differs.

9. DEFINITIONS AND ABBREVIATIONS

CLIENT	Transnet Engineering Durban
TECHNICAL OFFICER	Project Manager, Transnet Engineering Durban
CONTRACTOR	Contractor appointed under this specification document
SABS	South African Bureau of Standards
Duty Cycle	Refers to the time as a percentage of a ten-minute period that you can weld at a certain load without overloading.
FEM	Federation of European Mechanical Handling Standard
ISO	International Organisation for Standardisation

10. GENERAL

- 10.1 The successful tenderer will be subjected to a workshop inspection by Transnet Engineering, to ensure that the facilities are to the satisfaction of the Transnet Engineering in terms of the quality control and equipment capabilities for manufacturing such type of equipment.
- 10.2 The tenderers shall guarantee that the rating and size etc. of the equipment offered, will be adequate to perform the duties required.

11. SITE ESTABLISHMENT

- 11.1 The contractor shall be solely responsible for safety of his staff and for providing security to safeguard his works and material on site, until such a time.
- 11.2 The contractor shall be required to attend site meetings when convened by the Project Leader controlling the contract.
- 11.3 The contractor shall be responsible for any damages caused by his staff to the building and civil works on site.

14. TENDER EVALUATION CRITERIA

The following criteria will be used to award the tender. Should there be a criteria over and above the listed below, that will be used, such criteria will be specifically stated.

Technical evaluation criteria

No.	Technical Evaluation Criteria	Weightings	Scoring guideline						
14.1	<p>The methodology, standards and working procedures that will be used in the execution of this contract (detailed written process and project plan to be supplied by the bidder):</p> <p>The methodology that will be used in the execution of this contract is provided</p> <p>A process /project plan for the execution of this contract is provided.</p>	10 points	<p>As the response from the supplier / service provider</p> <table border="1"> <tr> <td>Methodology and process / project plan provided and fully detailed (very clear)</td> <td>10 points</td> </tr> <tr> <td>Methodology and process / project plan not provided</td> <td>0</td> </tr> <tr> <td colspan="2">Where any of the required documents are not submitted, 0 points will be allocated.</td> </tr> </table>	Methodology and process / project plan provided and fully detailed (very clear)	10 points	Methodology and process / project plan not provided	0	Where any of the required documents are not submitted, 0 points will be allocated.	
Methodology and process / project plan provided and fully detailed (very clear)	10 points								
Methodology and process / project plan not provided	0								
Where any of the required documents are not submitted, 0 points will be allocated.									
14.2	<p>Compliance to scope of work</p> <p>Adherence to TE specification (read, all tables for compliance filled in, compliance confirmed by writing “yes” or by ticking in relevant boxes on page 4 and page 5, signed off all the pages and attached in the tender document)</p>	60 points	<p>Completed and signed off the scope of work / specification</p> <table border="1"> <tr> <td>Specification returned (complete and signed off)</td> <td>60 points</td> </tr> <tr> <td>Specification returned but not fully completed, not signed off on all the pages</td> <td>0</td> </tr> </table>	Specification returned (complete and signed off)	60 points	Specification returned but not fully completed, not signed off on all the pages	0		
Specification returned (complete and signed off)	60 points								
Specification returned but not fully completed, not signed off on all the pages	0								
14.3	<p>Experience</p> <p>Specific knowledge of supplying, and testing of magnetic drilling machines:</p> <p>Previous experience of supply, delivery and testing of industrial welding machines in the past 10 years, with contactable references on a letter head of the company</p>	30 points	<p>Two (2) contactable references, in the format of letters on client’s letterhead submitted = 30 points</p> <p>One (1) contactable references, in the format of letters on client’s letterhead submitted = 15 points</p> <p>Zero (0) /no reference letters submitted = 0</p>						

Total Weighting:

100 points

Minimum qualifying score required:

70 points
