## 1. Plastering and Painting Allowances:

 We noted that plastering and painting is required but these items are not measured in the BOQ. Are we to make allowances within our rates or can we add additional items not stipulated in the BOQ? Please see Addendum 05

## 2. Mezzanine Flooring Replacement:

 What is the mezzanine floor going to be made out of? 21mm Thick shutter ply or concrete? Furthermore, the BOQ speaks to removing 270m2 mezzanine flooring but only replacing 80m2 with timber flooring. Is this correct? Drawings notes is timber and the note on the section reference 21mm Thick shutter ply correct.

## TRANSNET NATIONAL PORTS AUTHORITY TENDER NUMBER: TNPA/2024/06/0007/67960/RFP DESCRIPTION: PROVISION OF SERVICES TO UPGRADE THE EXISTING TRANSNET NATIONAL PORTS AUTHORITY (TNPA) NATIONAL FIRE SERVICE INFRASTRUCTURE AND EQUIPMENT PROJECT (PHASE 2A) IN THE PORT OF CAPE TOWN FOR A PERIOD OF 1 (ONE) YEAR.

## 3. Concrete Roof Slab:

• The BOQ itemises a concrete roof slab and beams which equates to 88m3, however the only roof slab that can be identified in the drawings is for the lift shaft which is roughly 4.57m3. Is there another area where we would be casting roof slabs, besides the lift shaft? Please use the 88 m3 as per what the BOQ has measured.
