DESCRIPTION **PROVISION OF AERIAL PHOTOGRAPHIC SURVEY FOR TRANSNET NATIONAL PORTS AUTHORITY AT THE PORT OF SALDANHA FOR A ONCE-OFF PERIOD**

**BID RESPONSE DOCUMENTS SUBMISSION INSTRUCTIONS**

Transnet has implemented a new electronic tender submission system, the e-Tender Submission Portal, in line with the overall Transnet digitalization strategy where suppliers can view advertised tenders, register their information, log their intent to respond to bids and upload their bid proposals/responses on to the system.

The Transnet e-Tender Submission Portal can be accessed as follows:

- a) Log on to the Transnet eTenders management platform website/Portal using **Google Chrome:** [transnetetenders.azurewebsites.net](https://transnetetenders.azurewebsites.net);
- b) Click on "ADVERTISED TENDERS" to view advertised tenders;
- c) Click on "SIGN IN/REGISTER to register new bidder information and ensure that all mandatory information is completed OR to sign in if already registered;
- d) Toggle (click to switch) the "Log an Intent" button to submit a bid;
- e) Respondents are to submit bid documents by uploading them onto the Transnet system against each tender selected. A Bidder can upload 30mb per upload and multiple uploads are permitted.**
- f) Bidders should ensure that electronic bid submissions are submitted at least a day before the closing date and bidders should not wait for the last hour before the deadline to submit. This is to enable them to timeously address issues which they may encounter due to internet speed, bandwidth or the size of the number of uploads being submitted. Transnet will not be held liable for any challenges experienced by bidders as a result of their own technical challenges.
- g) No late submissions will be accepted.
- h) Each company must register its own profile using its company details and use the corresponding registered profile to log an intent to bid as well as submitting any bid. Transnet will not accept a bid or will disqualify a bidder who submits a bid in the Transnet e-tender submission through another bidders'/Company's profile. In other words, each bidder must register the intent to bid and submit its bid through its own profile under the same company name that will eventually bid for the tender. No company shall submit a bid on behalf of another company regardless of the company being a subsidiary or holding company.
- i) In case of a Joint Venture, any of the parties/companies to the Joint Venture may use its registered profile to submit a bid on behalf of the Joint Venture.
- j) A detailed bidder guide can be found on the Transnet Portal [transnetetenders.azurewebsites.net](https://transnetetenders.azurewebsites.net)

The test for the Technical and Functional threshold will include the following:

### ***Refer to Annexure B: Technical Evaluation***

***The minimum threshold for technical/functionality [Step TWO] must be met or exceeded for a Respondent's Proposal to progress to Step Four for final evaluation***

## 1.3 STEP THREE: Evaluation and Final Weighted Scoring

a) **Price and TCO Criteria** [Weighted score 80 points]:

Evaluation Criteria	RFP Reference
<ul style="list-style-type: none"> <li>Commercial offer</li> </ul>	<i>Section 4</i>
<ul style="list-style-type: none"> <li>Commercial discounts<sup>1</sup></li> </ul>	<i>Section 4</i>

Transnet will utilise the following formula in its evaluation of Price:

$$PS = 80 \left( 1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where:

$Ps$  = Score for the Bid under consideration  
 $Pt$  = Price of Bid under consideration  
 $Pmin$  = Price of lowest acceptable Bid

<sup>1</sup> Only unconditional discounts will be taken into account during evaluation. A discount which has been offered conditionally will, despite not being taken into account for evaluation purposes, be implemented when payment is effected

**b) Specific Goals** [Weighted score 20 points]

- Specific goals preference points claim form
- Preference points will be awarded to a bidder for attaining the specific goals requirements in accordance with the table indicated in Section 4.1 of the specific goals Claim Form.

**1.4 STEP FOUR: Price Negotiations (if applicable)**

- Respondents are to note that Transnet may not award a contract if the price offered is not market-related. In this regard, Transnet reserves the right to engage in PTN with the view to achieving a market-related price or to cancel the tender. Negotiations will be done in a sequential manner i.e.:
  - first negotiate with the highest ranked bidder or cancel the bid, should such negotiations fail,
  - negotiate with the 2nd and 3rd ranked bidders (if required) in a sequential manner.
- In the event of any Respondent being notified of such short-listed/preferred bidder status, his/her bid, as well as any subsequent negotiated best and final offers (BAFO), will automatically be deemed to remain valid during the negotiation period and until the ultimate award of business.
- Should Transnet conduct post tender negotiations, Respondents will be requested to provide their best and final offers to Transnet based on such negotiations. Where a market related price has been achieved through negotiation, the contract will be awarded to the successful Respondent(s).

**1.5 STEP FIVE: Award of business and conclusion of contract**

- Immediately after approval to award the contract has been received, the successful or preferred bidder(s) will be informed of the acceptance of his/their Quotation by way of a Letter of Award. Thereafter the final contract will be concluded with the successful Respondent(s), where applicable.
- Alternatively, the acceptance of a letter of award by the Successful Respondent will constitute the final contract read together with their RFQ response and the Standard Terms and Conditions. This will be stated in the letter of award.

**2 Validity Period**

Transnet requires a validity period of 90 [ninety] Business Days from the closing date of this RFQ, excluding the first day and including the last day.

Bidders are to note that they may be requested to extend the validity period of their bid, on the same terms and conditions, if the internal evaluation process has not been finalised within the validity period. However, once the adjudication body has approved the process and award of the business to the successful bidder(s), the validity of the successful bidder(s)' bid will be deemed to remain valid until a final contract has been concluded.

ANNEXURE A:

SCOPE OF WORK

## **Photographic survey: Scope of work**

### **PHOTOGRAPHIC SURVEY: PORT OF SALDANHA**

#### **1. INTRODUCTION**

The South African ports are viewed as the key engines for economic growth. South Africa is situated on one of the busiest international sea routes, critical to international maritime transportation, and its geographical location presents a huge opportunity for investing in a diversified maritime market. In line with the growing developments in the maritime industry, the National Ports Authority seeks to continue to enhance its role in facilitating trade, influencing growth through the provision of port infrastructure capacity ahead of demand; and aligning its core activities to changing market dynamics. The Authority has several additional development projects planned for the next five to ten years. The ports under the control of the TNPA span the South African coastline, which measures approximately 2 800 km. TNPA's asset base consists of port land, basic port infrastructure and marine fleet at the eight commercial ports. TNPA manages port land of approximately 43,4 million m<sup>2</sup> and about 750 leases across the port system.

#### **2. BACKGROUND**

The breakwater in the Port of Saldanha is a structure built to provide protection and calm waters for ships and vessels entering and exiting the port, the breakwater is 2km long open sea and 2km long inside port. It is a massive wall made of beach sand that extends out into the ocean, forming

a barrier against waves and currents. The breakwater acts as a shield, reducing the impact of rough seas and creating a safer environment for ships to navigate. It also helps in preventing erosion along the coastline. The breakwater in the port of Saldanha is an essential component of the port infrastructure, ensuring smooth maritime operations and enhancing safety for vessels.

**Figure 1: Port of Saldanha**

The seawalls also serve an important function in the port, they provide protection against coastal erosion and flooding by acting as barriers that absorb and dissipate the energy of waves, the project scope cover 3.750km of seawalls/revetment at the Port of Saldanha. This helps to safeguard the port infrastructure and nearby areas from the damaging effects of storms and high tides. The seawalls help to maintain navigational channels by reducing sedimentation and preventing the build-up of sand and debris. They create a calm water area within the port wet assets, providing a safe and stable environment for ships to dock and unload their cargo. Seawalls

also enhance the aesthetics of the port and contribute to the overall attractiveness of the surrounding area.

### **3. SCOPE OF WORK**

The photographic survey is to visually document the current condition of the breakwater and seawalls/revetment at the Port of Saldanha. The survey will identify structural any structural damages, erosion, any features that require maintenance or repair.

➤ **Objectives**

1. Provide high-resolution visual data of the breakwater and revetments.
2. Support the condition assessments and future design or maintenance activities.
3. Develop photographic documentation for integration with GIS or CAD.

2. Ground-level photography: close-up images of structural details of breakwater and seawalls sections.

➤ **Deliverables**

1. Photographic data

## **5 DISQUALIFICATION FROM BIDDING PROCESS**

- 5.1 If the Bidder / Supplier has committed a transgression through a violation of paragraph 3 of this Integrity Pact or in any other form such as to put its reliability or credibility as a Bidder / Supplier into question, Transnet may reject the Bidder's / Supplier's application from the registration or bidding process and remove the Bidder / Supplier from its database, if already registered.
- 5.2 If the Bidder / Supplier has committed a transgression through a violation of paragraph 3, or any material violation, such as to put its reliability or credibility into question, Transnet may after following due procedures and at its own discretion also exclude the Bidder / Supplier from future bidding processes. The imposition and duration of the exclusion will be determined by the severity of the transgression. The severity will be determined by the circumstances of the case, which will include amongst others the number of transgressions, the position of the transgressors within the company hierarchy of the Bidder / Supplier and the amount of the damage. The exclusion will be imposed for up to a maximum of 10 (ten) years. However, Transnet reserves the right to impose a longer period of exclusion, depending on the gravity of the misconduct.

## **6 DATABASE OF RESTRICTED SUPPLIERS**

- 6.1 The process of restriction is used to exclude a company/person from conducting future business with Transnet and other organs of state for a specified period. No Bid shall be awarded to a Bidder whose name (or any of its members, directors, partners or trustees) appear on the Register of Tender Defaulters kept by National Treasury, or who have been placed on National Treasury's List of Restricted Suppliers. Transnet reserves the right to withdraw an award, or cancel a contract concluded with a Bidder should it be established, at any time, that a bidder has been restricted with National Treasury by another government institution.
- 6.2 All the stipulations on Transnet's restriction process as laid down in Transnet's Supply Chain Policy and Procurement Procedures Manual are included herein by way of reference. Below follows a condensed summary of this restriction procedure.
- 6.3 On completion of the restriction procedure, Transnet will submit the restricted entity's details (including the identity number of the individuals and registration number of the entity) to National Treasury for placement on National Treasury's Database of Restricted Suppliers for the specified period of exclusion. National

Treasury will make the final decision on whether to restrict an entity from doing business with any organ of state for a period not exceeding 10 years and place the entity concerned on the Database of Restricted Suppliers published on its official website.

- 6.4 The decision to restrict is based on one of the grounds for restriction. The standard of proof to commence the restriction process is whether a "*prima facie*" (i.e. on the face of it) case has been established.
- 6.5 Depending on the seriousness of the misconduct and the strategic importance of the Goods/Services, in addition to restricting a company/person from future business, Transnet may decide to terminate some or all existing contracts with the company/person as well.
- 6.6 A supplier or contractor to Transnet may not subcontract any portion of the contract to a restricted company.
- 6.7 Grounds for restriction include: If any person/Enterprise which has submitted a Bid, concluded a contract, or, in the capacity of agent or subcontractor, has been associated with such Bid or contract:
  - a) Has, in bad faith, withdrawn such Bid after the advertised closing date and time for the receipt of Bids;

    - (ii) before making such statement he took all reasonable steps to satisfy himself of its correctness;
  - g) has submitted false information regarding any other matter required in terms of the Preferential Procurement Regulations, 2017 issued in terms of the Preferential Procurement Policy Framework Act which will affect the evaluation of a Bid or where a Bidder has failed to declare any subcontracting arrangements;

  - i) has litigated against Transnet in bad faith.

- 7.2 If it is found to be that the Bidder / Supplier made an incorrect statement on this subject, the Bidder / Supplier can be rejected from the registration process or removed from the Bidder / Supplier database, if already registered, for such reason (refer to the Breach of Law Form contained in the applicable RFX document.)

## 10 DISPUTE RESOLUTION

10.1 Transnet recognises that trust and good faith are pivotal to its relationship with its Bidders / Suppliers. When a dispute arises between Transnet and its Bidder / Supplier, the parties should use their best endeavours to resolve the dispute in an amicable manner, whenever possible. Litigation in bad faith negates the principles of trust and good faith on which commercial relationships are based. Accordingly, following a restriction process as mentioned in paragraph 6 above, Transnet will not do business with a company that litigates against it in bad faith or is involved in any action that reflects bad faith on its part. Litigation in bad faith includes, but is not limited to the following instances:

- b) **Perjury:** where a supplier make a false statement either in giving evidence or on an affidavit;

## 3 SUBMITTING OF BID DOCUMENTS

- 3.1 A Bid, which shall hereinafter include reference to an RFP or RFQ, shall be submitted to Transnet no later than the closing date and time specified in accordance with the directions issued in the Bid Documents. Late Bids will not be considered.

## 4 USE OF BID FORMS

- 4.1 Where special forms and/or formats are issued by Transnet for the submission of Bids, Respondents are required to submit their Bids by completion of the appropriate sections on such official forms and/or formats and not in other forms and/or formats or documents bearing their own terms and conditions of contract. ## **7 SITE VISITS / BRIEFING SESSIONS**

Respondents may be requested to attend a site visit or briefing session where it is necessary to view the site in order to prepare their Bids, or where Transnet deems it necessary to provide Respondents with further information to allow them to complete their Bids properly. Where such visits or sessions are indicated as compulsory in the RFX Document, Respondents are obliged to attend these meetings as failure to do so will result in their disqualification.

Transnet assumes no responsibility for such insurance being adequate to protect all of the Service Provider's liability.

23.4 In the event that the Service Provider receives written notice from its insurers advising of the termination of its insurance cover referred to in clause 23.1 above or if the insurance ceases to be available upon commercially reasonable terms, the Service Provider shall immediately notify Transnet in writing of such termination and/or unavailability, whereafter either the Service Provider or Transnet may terminate this Agreement on giving the other Party not less than 30 [thirty] calendar days prior written notice to that effect.

He/she will make this file available to the client or his representative whenever necessary or on request to an interested party

#### 4.5.3. Legal Liabilities

Common Law and Legislation

Based on two main criteria –

- (a) Would the reasonable person have foreseen the hazard?  
**That is a reasonable person in that specific position, taking experience, qualifications, authority, position in the organization etc. into consideration**
- (b) Would the reasonable person have taken precautionary measures (action) to prevent or limit the hazard?

Negligence can be proven on failure on any or both of the above criteria  
(There may not necessarily be a relationship between criminal and civil liability!)

## 5. Safety, Health and Environmental Risk Assessments

The Principal Contractor is required to develop Risk Assessments, Standard Working Procedures (SWP) and Method Statements for each activity executed in the contract or project.

The identification of hazards is over and above the hazards identification programme and those hazards identified during the drafting of the Health and Safety Plan.

### 5.1. Arrangements for Controlling Significant Site Risks

Arrangements need to be defined for the identification and effective management of activities with significant SHE risks. This can be achieved by carrying out risk assessments and incorporating those prepared by other Contractors. Method statements addressing the identified hazards must then be prepared. These activities may be specific to a particular trade or to site-wide issues, and may include –

- a) the storage and distribution of materials;
- b) the movement of vehicles on site, particularly as this affects pedestrian and vehicular safety;
- c) control and disposal of waste;
- d) the provision and use of common mechanical plant;
- e) the provision and use of temporary services (e.g. electricity);
- f) commissioning, including the use of permit-to-work systems;
- g) Exclusion of unauthorised people - control measures to deal with this, including the protection of members of the public, must be clearly defined.

### 5.2. Development of Risk Assessments

Every Principal Contractor shall, before the commencement of any work and during such work, cause a risk assessment to be performed by a competent person, appointed in writing, and the risk assessment shall form part of the SHE plan and be implemented and maintained.

- a) To be completed **one week** before the execution of a job, and submitted to the Project Manager for approval, to avoid delays.
- b) Each Contractor shall submit a Risk Assessment Plan that will also include a monitoring and review plan.
- c) Attach **Safe-operating procedures** and **Method statements** to Risk Assessments.
- d) Each Supervisor to communicate Job specific Risk Assessments to every person involved on the job and workmen must sign acknowledgment the communication

e) of and understanding the risks related to the job and preventative measures and controls.

f) The risk assessment shall include, at least:

- i. the identification of the risks and hazards to which persons may be exposed
- ii. the analysis and evaluation of the risks and hazards identified
- iii. a documented plan of safe work procedures to mitigate, reduce or control the risks and hazards that have been identified
- iv. a monitoring plan and
- v. a review plan

Based on the risk assessment, the Principal Contractor shall develop a set of site-specific SHE rules that shall be applied to regulate the SHE aspects of the work. The risk assessment, together with the site-specific SHE rules shall be submitted to TNPA before the work on site commences.

Despite the risk assessments listed in, the Principal Contractor shall conduct a baseline risk assessment and the aforesaid listed risk assessment shall be incorporated into the baseline risk assessment. The baseline risk assessment shall further include the standard working procedures and the applicable method statements based on the risk assessments

Integral to the baseline assessment is the programme of impact assessment studies i.e. evaluating the effect the activities at a workplace (particularly in emergency situations) could have on the neighbouring areas.

The baseline assessment is sometimes regarded as a “snapshot” of an industry’s hazard profile at a particular time. It is meant to serve as a starting point for a permanent risk elimination programme and includes the set-up of a priority table based on the likelihood and criticality of the hazard identified and listed on the profile.

It is important that the baseline assessment is periodically reviewed, in order to ensure that the profile always reflects an up-to-date priority profile of significant risk/hazards.

1. Pilot/Operator competency
2. Pilot proficiency / experience
3. Crew proficiency / experience
4. Wearing or having available appropriate PPE
5. Equipment mechanical maintenance
6. Flammable /Hazardous chemical substance exposure
