

(iCLM PE 773 TPT)

Returnable Schedule used for Scoring

	Technical Specification Data Sheet	Returnable Schedule 1
--	---	------------------------------

The Bidder must provide a technical specification datasheet for the front-end loader engine to be supplied and delivered to TPT. The technical specification data sheet must show that the brand-new engine is completely compatible and interchangeable with the engine currently installed on the machine. This shall be in terms of fit, size, capacity, and functionality. The datasheet shall state which machines the engine is for and specification 6, 7, 8, 9, and 10 in Table 1 shall be visible on the datasheet and be within ± 1 accuracy. The Technical Specification Data Sheet must be attached to Returnable Schedule 1.

Confirm the following has been attached to this schedule	Yes/No
1. Technical data sheet for brand-new front end loader engine	

Scoring:

1. Datasheet states that the engine is compatible with HL 770-9S model = 10 Points
2. Engine cylinder bore x stroke is 114 x 145 mm = 18 Points
3. Piston displacement is 8900 cc = 18 Points
4. Compression ratio is 17.8 : 1 = 18 Points
5. Rated gross horsepower is 208 kW at 2000 RPM = 18 Points
6. Maximum gross torque at 1400 RPM is 1451 Nm = 18 Points
7. None of the specifications match = 0 Points
