Business Background

Durban Container Terminal, Pier 1, utilizes Ship to Shore (STS) for their container operations. The purpose of this work instruction is to procure services from an external Service Provider to provide service for the repairs of Ship to Shore (STS) and related port equipment for an accumulated period of 200 hours. The services of the external service provider are to ensure successful execution of planned maintenance activities and major equipment repairs as and when required.

1. SCOPE OF WORK:

1.1 This document covers the requirements of Alimak lifts repairs for STS cranes.

1.2 The scope of work shall include the following but is not limited to:

1.2.1 Execute the works as detailed under section 2 of this document.

2. DETAILED REQUIREMENTS:

2.1 Attend the breakdown, perform inspections, and conduct the necessary repairs to restore all lift motions.

2.2 Provide a detailed report with findings such as problem found, root cause, repairs performed, spares required/utilized, amount of hours spent on the breakdown and recommendations to prevent the reoccurrence of the same fault.

2.3 Provide management with frequent updates during the fault-finding or repairs Progress.

2.4 Clean and clear the working area.

2.5 Report to management once all work has been completed.

3. OTHER REQUIREMENTS:

3.1 Only contractors that can demonstrate sufficient recent experience in repairing Alimak lifts for STS Cranes shall be considered.

3.1.1 The contractor must provide sufficient information and references with their response to enable Transnet Port Terminals to determine their level of experience as indicated in Annexure A.
